WINGATE COLLEGE

WINGATE, NORTH CAROLINA

THE WINGATE COLLEGE SEAL

The seal of Wingate College is a shield. As long ago as Bible times, a shield bore distinctive marks of identification. In the Old Testament, "God is a shield" (Psalm 18:30), and in the New Testament, "faith is a shield" (Ephesians 6:16).

The enduring symbol of Christian faith is the cross upon which Jesus died.

The lamp is a traditional symbol of learning, as light from the lamp illumined the scholar's pursuit of truth.

The laurel wreath symbolizes honor and achievement.

Faith. Knowledge. Service. A Wingate education seeks to encourage a student to a mature Christian faith; to develop knowledge of which God is the author; to energize faith and knowledge in useful service to God and humankind.

WELCOME!

Visitors are always welcome at Wingate College.

Wingate College is operated on a nondiscriminatory basis. Wingate College complies with federal law, including the provisions of Title VI of the Civil Rights Act of 1964, Title IX of Education Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. Wingate College does not discriminate on the basis of race, sex, religion, color, national or ethnic origin, age, disability or military service in its administration of education policies, programs, activities or services; admissions and housing policies; scholarship and loan programs; or employment; except where exemption is appropriate and allowed by law. Inquiries or complaints should be directed to the Office of Business Affairs, Stegall Administration Building, Wingate College, P.O. Box 159, Wingate, North Carolina 28174. Telephone (704) 233-8000.

Wingate College does not discriminate on the basis of race, color, religion, sex, age, national or ethnic origin, disability or veteran status in its administration of education policies, programs, activities or services; its admissions policies; scholarship or loan programs; or employment, as required by law. Wingate College also abides by the provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973, as applicable.

Wingate College further complies with the provisions of the Family Educational Rights and Privacy Act of 1974. A copy of the Act and the College's policy regarding Student Educational Records and Information is on file at the Office of the Senior Vice President for Student Development and at the Office of the Registrar.

Information on crime statistics and graduation rates is available upon request in the Office of Admissions.

Colleges and universities have specific requirements which must be met before a degree can be granted. These requirements include particular courses and curricula, residence on campus, and grade-point averages. Advisors and deans are happy, upon request, to help students meet requirements and to maintain accounts of their progress. A student's official record is available to the student at any time during normal office hours in the Office of the Registrar. *The responsibility for meeting the requirements for a degree rests with the individual student.* If all requirements are not completed, a degree cannot be awarded. Therefore, it is important for the student to be acquainted with all college requirements and to make progress toward meeting them.

The college reserves the right to alter graduation requirements and/or to modify academic programs at its discretion. A student's catalog year is that of his entering academic year. A student may request graduation under any catalog published following his enrollment, provided that the catalog is no more than six years old at the time of graduation.

Information contained in this catalog is accurate as of the date of publication. However, Wingate College reserves the right to make such changes in educational and financial policy—due notice being given—as the Wingate College Board of Trustees may deem consonant with sound academic and fiscal practice. The college further reserves the right to ask a student to withdraw at any time.

Chapter 1

An Introduction To Wingate College

Statement of Purpose

Wingate College exists to afford students educational opportunities in a setting characterized by Christian sensitivity and moral responsibility. The College seeks to relate the theories, data, and competencies of the curriculum to the cultural and interpersonal experiences of college life; and to lead the student to confront great moral issues. The college community promotes personal resolution in life's great issues, drawing on the wisdom of humane learning, the rigor of logical reasoning, the discipline of scientific observation, and the truth of Christian faith.

Wingate College takes seriously its responsibility to the Christian faith, to churches, and to its covenant relationship with the Baptist State Convention of North Carolina. Students, faculty and administrators foster a sense of community which finds expression in responsiveness to the wider family of constituents: parents, alumni, churches, donors, local citizens, friends and others.

Wingate College pursues excellence in every aspect of college life. But since the College cannot be faithful to its mission by being all things to all persons, limits are necessary in order to concentrate resources for optimum results in chosen endeavors.

As the student population is drawn predominantly from the Carolinas and the Southeast, concern for broadened horizons and world awareness receives special emphasis. Opportunities for international experience and exposure to world issues are a significant component of a Wingate education.

The ultimate goal of Wingate College, past, present, future, is to be a person-centered community where truth is sought and revered in an atmosphere of Christian truth and loving concern.

History

Wingate College is located in the village of Wingate, at the eastern edge of metro Charlotte on Highway 74. It is four miles east of Monroe, the county seat of Union County. Wingate is in the heart of the Piedmont with the scenic Appalachian Mountains to the northwest and the Atlantic Coast with its beaches to the east.

Wingate is one of seven colleges in North Carolina supported by the churches of the Baptist State Convention. Since 1947 Baptists have participated in the growth and development of Wingate by electing trustees to govern the college, by generous financial support through the Cooperative Program, and by sending young men and women into its academic program.

The college had its beginning in the establishment of the Wingate School in October 1895 by the Union Baptist Association. The institution, intended by its founders to be a "school of high grade," first opened its doors in 1896 under the principalship of M. B. Dry. The chief administrators of Wingate have been:

M. B. Dry	1896-1908
B. Y. Tyner	1908-1911
Grover Carroll	1911-1918
Patty Marks	1918-1919
C. M. Beach	1919-1924
J. B. Huff	1924-1930
Coy Muekle	1930-1936

J. B. Little	1936-1937
C. C. Burris	1937-1953
Budd E. Smith	1953-1974
Thomas E. Corts	1974-1983
Paul R. Corts	1983-1991
Jerry E. McGee	1992-

From the outset, the purpose and mission of Wingate was clear, as revealed by a statement in the 1898 catalogue:

The founders of the Wingate School were men who saw far into the future and whose motives were not those of mere self-interest or self-aggrandizement. They saw that all over our country boys and girls were growing up into manhood and womanhood without the requisite moral, religious and intellectual training to fit them for the great duties and responsibilities of life. Their hearts and their minds went out toward them, and the Wingate School was the result. But the great and over-shadowing purposes of the establishment of this school was to make it a Christian school. And this is what the Wingate School professes to be. It is not the purpose of the school, however, to teach denominationalism. The chief aim is to surround the school with an invigorating religious atmosphere to give tone to its life.

In 1923, Wingate added a college level division to its preparatory curriculum. The college gained accreditation by the Southern Association of Colleges and Schools in 1952. Wingate inaugurated baccalaureate programs in the Fall of 1977 and, in 1979, received full accreditation as a senior college.

The Campus Community

Wingate's campus provides facilities for housing, meals, health care, recreation, and study.

ADMINISTRATION BUILDINGS

Dickerson Infirmary, erected with gifts of the banks of Monroe, Wingate, and Marshville, has quarters for the college nurse and physicians. The infirmary is named for the late N. K. Dickerson, Sr., of Monroe.

The Dickson-Palmer Center was dedicated in April of 1977. The center houses the campus bookstore, game rooms, a T.V. Lounge, pool tables, a table tennis room, snack bar, and six bowling lanes. There are various other lounges for reading, music, and conversation. Helms Forum, seating 150, provides an auditorium for student and faculty gatherings and movie screenings. Eaton Hall, a 1000 square foot hall, is a popular site for informal student and faculty social events.

The Dickson-Palmer Student Center also provides offices for student personnel administrators, conference rooms, a campus post office, and facilities for student government and *The Gate*, the campus yearbook. The Career Placement Office and the College Counseling Center are also located in this building, as are the Office of the Campus Minister, a small chapel, and an information center. The building honors Clyde C. Dickson of Charlotte and the late Fannie Drye Palmer of Albermarle.

R. W. Goodman Campus Service Center, built in 1986, serves as a multi-functional headquarters for maintenance, buildings and grounds services, custodial services, and primary stockroom for the college. It was built in honor of R. W. Goodman, longtime Richmond County Sheriff and friend of Wingate College.

Holbrook Building, named in honor of Roy L. Holbrook, dedicated friend and former trustee of Wingate College, was completed in the fall of 1965. Formerly the Administration Building, it currently houses Student Support Services and the Learning Center.

Stegall Administration Building, completed in 1991, is named in honor of Roy Stegall, a friend of the college for many years. Designed as the centerpiece of a growing campus, the Stegall Administration Building is located between the Charles Cannon Complex and the Dickson Palmer Center. It is surrounded by a landscaped plaza and a small lake.

The four story building is the working center of the college with administration, admissions, business affairs, the computer center, development, and alumni relations under one roof. The President and the Provost also have their offices there.

AUDITORIUMS AND THEATRES

Austin Memorial Auditorium, completed in 1960, seats 1,100, and serves as a cultural center for both the college and the surrounding community. The building is named for the late Mr. and Mrs. John M. Austin of Wadesboro. The auditorium was remodeled in 1980 to accommodate a custom-built 30-stop Holtkamp organ given by Miss Thelma Rivers, an alumna of the Wingate School, in honor of the Rivers family: Miss Alma Rivers, L. D. Rivers, and Theodore Rivers.

M. B. Dry Memorial Chapel, adjoining the lobby of Austin Auditorium, was presented to the College in 1964 by students of the late Professor Dry, first administrator of the school.

Laney Hall, erected in 1968 to honor the late Baxter Laney and Mrs. Laney (Minnie Funderburk '09), provides a 250-seat theatre, which is the site of the college's theatre productions.

COMPUTING FACILITIES

Bridges Hall houses microcomputer labs. The IBM laboratory contains 29 IBM personal computers plus printers, and the Apple Lab contains 22 Apple IIe personal computers plus printers. Both labs are open and available for student and faculty use twelve hours a day.

The Burris Computer Writing Lab has 25 Apple IIe computers and printers and is used extensively in freshman English for writing and remediation.

CLASSROOM BUILDINGS

Herbert Bridges Hall, completed in 1963, honors a former leader of the Wingate College Board of Trustees. The building provides classrooms, offices, laboratories, and auxiliary facilities for business administration classes.

Burnside-Dalton Fine Arts Center, named in honor of Harry L. Dalton and the late J. E. Burnside, both of Charlotte, was completed in 1968. It includes the Mullis Memorial Studio in addition to other art and music studios. The Allen Griffin Art Gallery houses a permanent art collection; included are works of noted South American, Japanese, and European artists. The building also houses foreign language classrooms and laboratories.

Burris Classroom Building, erected in 1936, contains twenty-three classrooms and twenty faculty offices. The building honors C. C. Burris, a former professor, dean, and president of Wingate College.

Burris is the location of the departments of English, Religion, Education, History, Sociology, and Psychology.

Charles A. Cannon Hall, erected in 1969-70, contains approximately thirty thousand square feet of laboratory and classroom space. The building honors the College's most generous benefactor, the late Charles Albert Cannon.

The departments of math, nursing, speech, journalism, and media arts are located in Cannon Hall. In addition, Cannon Hall contains the offices of *The Weekly Triangle*, the campus newspaper, and WCTV, the college's award-winning television station.

Lowery Art Center is a studio and classroom for painting, watercolor, pottery and sculpture. The building houses the Mountain man, one of the world's largest free-standing wood sculptures and a "Coneputer," a thermally computerized firing system for doing complicated firing procedures in electric oxidation kiln-firings.

Budd E. Smith Science Center, named in honor of the College's tenth president, and completed in 1962, provides classrooms and laboratories for life and physical sciences.

Plant and animal laboratories were added to the science complex in 1982. An animal lab section is named in memory of Bernice Brewer Russell, a 1927 alumna of the Wingate School. The lab section was a gift of Foil O. Russell.

DINING FACILITIES

W. T. Harris Dining Hall, renovated in 1976 and again in 1988, is designed to accommodate 1,500 students and has a seating capacity of 600. The building honors the late W.T. Harris of Charlotte, prominent trustee, supporter, and civic leader. The *LaVerne Banquet Hall* honors LaVerne Childers Harris of Charlotte and has a seating capacity of 400.

LIBRARY AND ARCHIVES

Efird Memorial Building was erected in 1947 and given by the descendants of the late J. E. Efird. It is the future location of the College archives.

Ethel K. Smith Library, named in memory of the college librarian who served as director from 1953-1974, is the heart of academic life on the campus. The large air-conditioned building, equipped with ample study tables and carrels, houses over 110,000 volumes and offers facilities for educational services. The library utilizes a computerized on-line catalog and circulation system, offers an increasing number of CD-ROM databases, has ERIC documents from 1980 to date, and is a depository for North Carolina State Government Documents. Within the structure are a 70-seat audiovisual auditorium, audio and video study and editing facilities, and a curriculum materials center. The *John and Anna William Bivens Teacher Materials Center*, a bright, well-equipped room, houses four wet (with electricity) carrels, several pieces of equipment used by classroom teachers, vertical files, and the *John Benjamin and Effie Hobbie Helms Curriculum Resources Collection*. This collection includes state-adopted textbooks and mixed media programs that support the College's education curriculum. The library provides access to considerable audiovisual materials, microforms, and microcomputer software as well as subscriptions to over 725 periodicals and newspapers. The *Mary Kincaid Children's Literature Collection* is updated by participation in the Awards Book Collection Plan, giving the library a core collection of award winning domestic and international children's books. Photocopying and interlibrary loan services are available. As a member of the Southeastern Library Network (SOLINET), Wingate College obtains on-line computerized OCLC bibliographic data for cataloging and interlibrary loan services. Multiple bibliographic, numeric, and full-text data bases are accessed through DIALOG, BRS, and WILSONLINE. The generosity of Mr. and Mrs. Charles A. Cannon launched construction of the original building in 1959. Before his death in 1971, Mr. Cannon made funds available for a large addition completed in 1972. The Cannon Foundation made possible a further addition and renovation in 1992.

RECREATIONAL FACILITIES

Charles A. Cannon Complex, opened in 1986, contains Cuddy Arena, a 2500-seat basketball arena, an olympic-size swimming pool, racquetball courts, a physical fitness laboratory, classrooms, and offices for the physical education, recreation, and sports medicine faculty.

McIntyre Gymnasium, built in 1927 and renovated during the 50's, provides additional space for physical education. The building bears the name of a prominent Wingate family. "Union County Printing Company," which services the college as well as local businesses, is adjacent to McIntyre Gymnasium.

Plyler Athletic Field, built in 1956 by the children of I. F. Plyler of Monroe, is the athletic field for baseball; it has a seating capacity of 3,000. Adjacent are several all-weather Grasstex tennis courts available year round.

Sanders-Sikes Physical Education Building, completed in 1959, is fully equipped for physical education. It has a regulation playing court. The structure honors two families prominent in the early history of the college. It contains the offices of the Athletic Director and coaches.

STUDENT RESIDENCES

For Men

Helms Hall, completed in 1967, houses approximately 200 men. It honors L. L. Helms, prominent alumnus and trustee of Wingate College and his wife, Mary Smith Helms.

Bridges Hall, erected in 1970, is arranged in suites. The Hall is named for H. Conrad Bridges of Mooresville, a former trustee.

Rushing Hall, erected in 1970, is arranged in suites. The Hall honors Mr. and Mrs. T. B. Rushing of Marshville.

Hackney Lounge, joining Bridges and Rushing Halls, provides lounge and study areas for men of the adjacent dorms. The lounge is named in honor of J. P. Hackney, Jr.

Holbert Hall, completed in 1964, is arranged in four halls. The Hall honors the late Edward D. Holbert of Albermarle.

For Women

Alumni Hall, constructed in 1946 and renovated in the summer of 1977, provides housing for women.

Bennett Hall, completed in 1964, is arranged in four halls. The Hall is named for the late W. L. Bennett, of Wadesboro, former trustee, alumnus, and supporter.

Hendricks Hall, completed in 1962, honors the late Dr. A. F. Hendricks, professor of Bible and mathematics for many years.

Ruth Coltrane Cannon Dormitory houses 160 women in three halls. The building honors the late Mrs. Charles A. Cannon.

Carol Belk Hall, completed in 1966, houses women in twenty suites. Attached to Belk is a one-story building that provides lounge areas. Belk Hall honors Mrs. Irwin Belk of Charlotte.

Special Housing

North Campus Residential Park, completed in 1987, houses 32 women and 24 men. This new direction in residence life living offers students the opportunity to experience apartment life. These are available to upperclass students on an honors basis.

For Married Students

College Apartments, an eight-unit facility located behind Sanders-Sikes Gymnasium, is set aside for married students.

Housing Policy

The Board of Trustees of Wingate College requires that unless married or living in their own home or in the home of their parents or legal guardian, all students who are Freshmen, Sophomores, or under 21 years of age must live on the campus in college housing. Students 21 years old and over, and/or Seniors, have the option of living off campus. Those living on campus must participate in a College meal plan.

Residence Hall Furnishings

Residence Hall rooms are furnished with beds, dressers, and desks or tables. Blinds are furnished in all rooms. Students furnish a waste basket, linens (towels, sheets, a pillow, blankets), study lamps, etc.

Student apartments are fully furnished. They include furnished bedrooms, a living room, a dining room, and a fully equipped kitchen.

Cable T.V. is available in both residence hall rooms and student apartments.

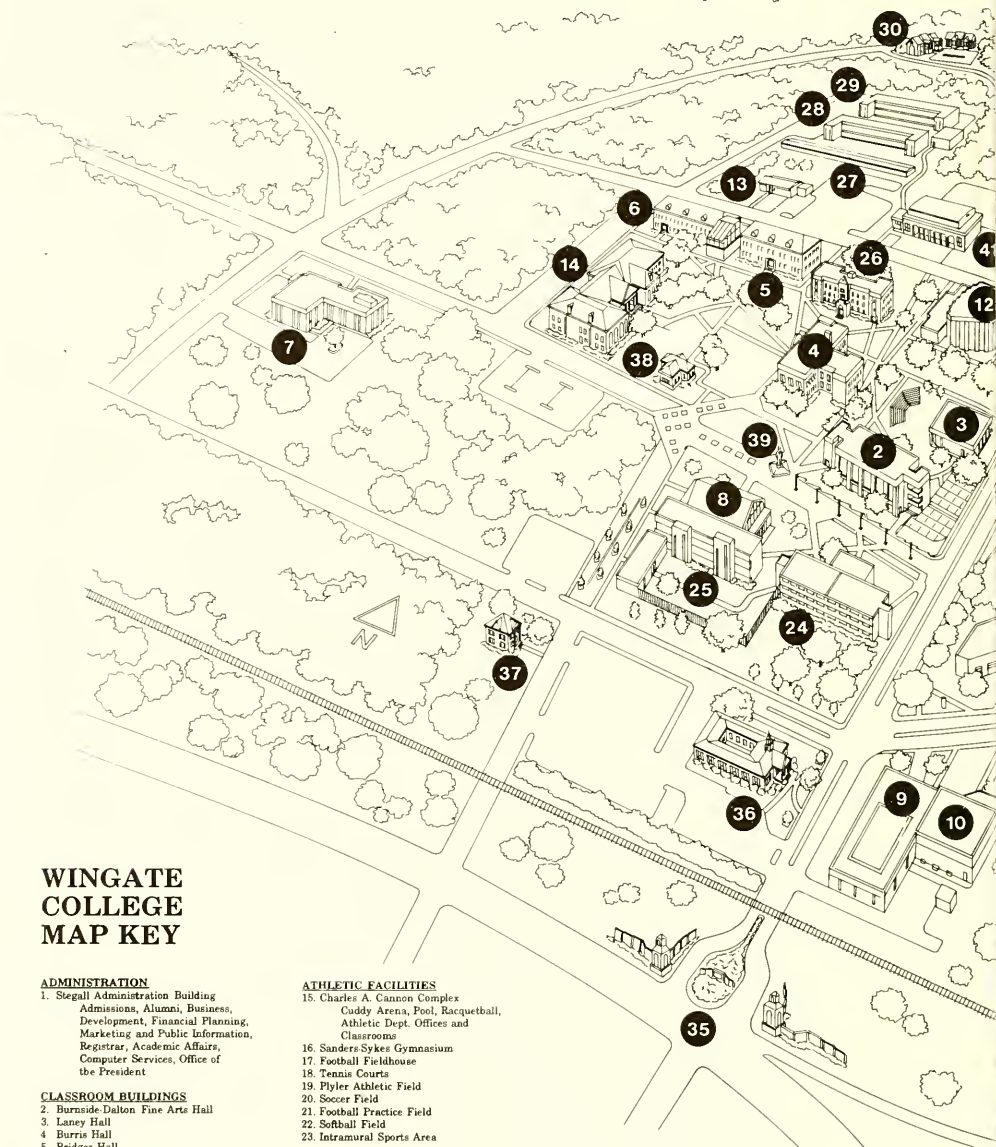

Students are assigned housing through the Office of Student Development, which attempts to accommodate student preferences in regard to roommates.

Insurance

Wingate College cannot provide insurance to cover the personal belongings of a student in residence at the College nor vehicles parked on college premises. The College recommends that the student and/or the student's family arrange for insurance coverage.

Residence Hall Staff

The Residence Hall Staff represents all residents living on campus. The staff assists in implementing residence hall regulations and with counseling students in the residence halls.

Student Life

The College encourages participation in a large number of social and extra-curricular programs. The offices of Student Development, the Director of the Dickson-Palmer Center, and the Campus Minister work closely to provide stimulating extra-classroom activities as well as personal and career counseling for Wingate students.

Opportunities for Involvement

The Dickson-Palmer Center

The Dickson-Palmer Center is the hub of student life at Wingate and houses the offices of Student Development, the Campus Minister, the Student Government Association, Activities Programming Board (APB), United Collegiate Assistance Network (UCAN), and the Christian Student Union. The Dickson-Palmer Center is the site for program planning and numerous student activities as well as recreational facilities, the coffee shop, and book store.

To help provide a variety of extracurricular activities, student committees arrange events including a traditional Family Christmas Dinner, movie screenings, special trips, coffee houses, community projects, and major concerts. Students are also offered mini-courses in the Center relating to community and international service.

Commuting Students

Wingate College makes every effort for students who reside at home and commute to the campus to have an enriching college experience. Lounges are maintained in the Dickson-Palmer Center and the Bridges Business Building

for the convenience of these students. Commuting students are encouraged to become involved in all aspects of campus life.

Religious Life

From the time of its establishment, Wingate College has regarded religion as a central factor in life. Wingate attempts to create an atmosphere in which students may mature in their religious beliefs.

Religious activities are coordinated by the Christian Student Union and the Campus Minister. The Wingate Baptist Church is adjacent to the campus and the Wingate United Methodist Church is located a few blocks away. Churches of other denominations are located in Monroe.

Wingate faculty members are personally dedicated to nurturing the religious faith of their students. They participate in area churches and believe that values are best taught by demonstration of the Christian faith.

Student Government

Wingate has an active Student Government Association under the supervision of the Senior Vice President for Student Development. The Association is a cooperative body with a constitution that provides for policy making and enforcing. All students are members of the Student Government Association, and its officers are elected by popular vote.

Athletics

To help the student develop a sound and strong body, the college sponsors a well-balanced program of healthful, organized, and supervised intramural athletics. Students are encouraged to participate.

Wingate College is actively involved in inter-collegiate athletics, fielding teams for men and women. Women regularly meet other teams in volleyball, soccer, basketball, softball and tennis. Men compete against other colleges in basketball, baseball, soccer, tennis, golf, football, and cross-country.

The college is a member of the South Atlantic Conference and the National Collegiate Athletic Association (NCAA Division II).

Cultural Programs

At Wingate emphasis is placed on the cultural aspects of life. The college sponsors a lyceum series each year which includes varied artistic programs. In addition, concerts are presented by the music faculty and students and music ensembles like the Chamber Singers, College Chorus, Symphonic Band, and the Jazz Ensemble. The Wingate College drama department also produces a

number of theatrical productions. The greater Charlotte metro area has numerous cultural attractions, including the Charlotte Symphony, Opera Carolina, Spirit Square, and the Mint Museum.

Fraternities and Sororities

The Wingate College Greek system offers opportunities for leadership, development, and social interaction. There are 3 fraternities for men:

Delta Sigma Phi Theta Epsilon Chapter
Pi Kappa Phi Associate Chapter and
Kappa Alpha Order Colony.

There are also 2 sororities for women:

Chi Omega Theta Lambda Chapter and
Sigma Sigma Sigma Zeta Lambda Chapter.

Anyone wishing to pledge either a fraternity or a sorority must have a cumulative grade point average of 2.30 or higher.

Student Publications

Students, under the direction of the Journalism Department, publish a college yearbook, *The Gate*; the campus weekly newspaper, *The Weekly Triangle*; and a literary magazine, *Counterpoint*. *The Student Handbook* is prepared by the Student Government Association and the Administration for the orientation and guidance of students.

Organizations

Honor Societies

Alpha Chi is a general honor society which recognizes academic excellence and exemplary character among college students. Members are elected by the faculty on the basis of grade-point average and character. To be considered, juniors and seniors must have a grade-point average in the top ten percent of their class.

Chi Omicron Pi is the honorary chemistry fraternity. It is open to students with a 'B' in chemistry and an overall average of 'C'.

Alpha Psi Omega is the honorary dramatics fraternity. Students with satisfactory academic standing who participate in the cast or crew of a production sponsored by the fraternity are eligible for membership.

Delta Sigma Rho-Tau Kappa Alpha is a forensics honor society open to students who have completed three semesters, rank in the upper 35% of their class and have a distinguished record of participation in co-curricular speaking activities for at least two years.

Sigma Tau Delta is an international English society for outstanding English majors and minors that promotes excellence and encourages further achievement in the discipline as well as encouraging creative writing.

Society for Collegiate Journalists is a national honorary society for student publication leaders. Chief activities include sponsoring visits and lectures by leading area communications experts, field trips, and an annual banquet honoring all campus publication leaders.

Campus Organizations

Numerous clubs at Wingate promote interest in subject matter and various activities. Included are the following:

The Activities Program Board (APB) is the branch of the Student Government Association responsible for planning campus student activities.

Alpha Kappa Delta, the music club, promotes various musical activities both on and off campus. It is open to all students.

The *Art Club* promotes interest in the visual arts through gallery/museum day trips, emphasizing the exchange of aesthetic concerns in an academic/social setting.

The American Association of Medical Assistants student club keeps abreast of current issues in the medical assisting profession.

Beta Kappa Mu is organized to develop student interest in the field of biology through extra-curricular activities and to serve as a communication device between students and faculty.

Campus Baptist Young Women promote missions through mission study and mission support. CBYW is a part of Women's Missionary Union of the North Carolina Baptist Convention.

The *Christian Student Union* coordinates many of the campus worship activities. It organizes Christian fellowship, campus outreach, student led revivals, and Bible studies.

The *Collegiate Music Educators National Conference* provides opportunities for the professional development of college students in the area of music education.

The *Communications Society* is open to all students who are interested in any area of communication studies.

Fellowship of Christian Athletes provides athletes and other students opportunity for sharing christian fellowship and promotes unity among those who participate in athletics.

The *History Club* promotes a broad interest in history and helps define the importance of history for students, faculty, and community.

The *Inter-Club Council* coordinates activities and promotes cooperation among the various organizations on campus.

Institute of Internal Auditors, Student Affiliate of the Charlotte Area Chapter, attends meetings in Charlotte once a month and hears speakers from internal auditing departments of local and regional companies. Membership is open.

International Club fosters a vigorous exchange of ideas among students from other countries and the United States.

The *Intramural Association* exists to promote interest and originate contests in competitive athletics and sports on the campus among those who are not engaged in intercollegiate sports.

The *Literary Club* promotes the study of literature and meets to discuss readings. It is open to all students who are vitally interested in literature and culture.

The *Minority Student Association* seeks to publicize issues concerning and achievements of minority groups — past, present, and future. It also establishes a forum for Minority Students at Wingate College to interact academically, socially, and politically.

The *National Art Education Association Student Chapter* provides opportunities for the professional development of art education students through affiliation with state and national organizations.

Outing Club promotes camping, hiking and other outdoor activities.

Pep Club promotes school spirit at athletic events on campus.

Phi Beta Lambda is a national organization for college business students with over 200,000 members in the United States and Puerto Rico. Wingate College's Phi Chapter holds semi-monthly meetings with guest speakers from all areas of business. Members also attend state and national meetings.

President's Forum is composed of the presidents of campus organizations. Members meet to discuss college affairs informally with the College President.

Sigma Alpha Omega is a mathematics club open to all students who are mathophiles.

Sigma Mu is the student wing of the North Carolina Council of Teachers of Mathematics. It promotes the profession of teaching mathematics and encourages students to enter this field.

The *Speech Team* presents oral interpretation of literature and original speeches in competitive tournaments.

The *Student Involvement Committee* is an enthusiastic group of students that plans class events and works together to promote class identity.

The *Student National Association of Educators* is for those students who are majoring in education or are simply interested in promoting awareness in the field of education. Membership allows students to avail themselves of the benefits of the NEA.

The *United Collegiate Assistance Network (UCAN)* provides a wide variety of volunteer community service opportunities such as campus recycling, hunger walks, tutorial programs, and work with the elderly.

Upstagers is the drama club which organizes and promotes on-campus productions.

'W' *Club* is composed of athletes outstanding in intercollegiate sports.

Wingate Communications Society is open to any student with an interest in video, journalism, public relations, etc. It meets with media professionals and plans tours to regional media centers.

Young Democrats Club promotes the interests of the Democratic Party.

Young Republicans Club promotes the interests of the Republican Party.

Rules and Policies

The College strives to maintain a wholesome, friendly, and inspiring campus environment conducive to the development of the whole person. As far as possible, students are dealt with individually and are encouraged to live up to their highest potential.

To remain in good standing, a student will be considerate of the well-being of others and will respect the traditions of the College.

Those planning to enter college should read carefully the following statements:

1. Hazing is a violation of the laws of the State of North Carolina. Any type of physical punishment, physical assault, humiliation, or intimidation of any student by another student is classed as hazing and is not permitted.
2. Possession or use of alcoholic beverages on campus or at College functions is strictly forbidden by all persons. Possession or use of alcoholic beverages by persons under 21 years of age and possession or use of drugs are violations of the laws of the State of North Carolina. Persons guilty of such acts will be subject to criminal prosecution. The College cooperates with law enforcement agencies regarding offenses concerning controlled substances.

3. The illegal possession or use of controlled substances is strictly forbidden.
4. Stealing, lying, gambling, cheating, vandalism, and other forms of immoral conduct are not permitted and will be dealt with according to the offense.
5. The possession of firearms, firecrackers, or explosives of any kind on a college campus is a violation of College policy and of North Carolina law.
6. The College reserves the right to suspend or expel in cases of major infractions of disciplinary rules. These include possession or use of alcoholic beverages, controlled substance, firearms, fireworks, gambling, hazing, destruction of property, sexual harassment, violation of residence hall visiting privileges.
7. Students are not permitted to keep pets in College buildings.
8. Rooms are equipped with adequate lighting. Sun lamps are not permitted.
9. Students may not change rooms without consent of the respective Resident Director.
10. Students must register motor vehicles.
11. When a student moves into a College room, he/she assumes obligation for that room for a semester.
12. **The Student Handbook**, containing specific regulations, is presented to every student at the beginning of the term. Students are responsible for regulations set forth in the student handbook as well as those of the catalog. Residence hall regulations are posted on the back of each room door.

Student Services

Orientation

During orientation, students explore academic and career options and are familiarized with the campus community prior to the beginning of classes in the fall semester. Students also have the opportunity to pre-register for the fall semester. Further orientation activities are planned for all students during the first three days of the fall semester.

Academic Support Services

A generous grant from the Jesse Ball DuPont Foundation allows Wingate to strengthen its dedication to the students' academic support and success by providing a comprehensive academic support system which includes: **Freshman Experience**, classes provided for all new students which orient their

members to the academic, social, intellectual, emotional, physical, and spiritual transitions college requires; a **Learning Center**, a place where students come for academic enhancement, enrichment, tutoring, counselling, advising and career information; a **Director of Student Support Services** whose responsibility it is to work with the college community as a whole in providing an atmosphere where success abounds; a **Director of Academic Advising** who works with students as they experience the need for academic change and faculty as they meet those needs.

Career Planning

Wingate College recognizes the importance of assisting students in their career decision making. Career counseling, interest inventories, and career information are available to students. The college also actively assists in job placement after graduation.

The college operates a Center for Counseling and Career Planning to provide support for students in these areas.

Messages and Mail

Every room or suite in the residence halls is equipped with a telephone. Students are billed individually for long-distance calls. Resident students are assigned mail boxes in the Dickson-Palmer Center. Mail boxes are also available for commuting students upon request. Most postal services are available at the campus post office; the Wingate Post Office is adjacent to the college campus.

Emergencies

On arrival, students are given numbers by which they can be reached in case of emergencies. Between 7:30 a.m. and 11:00 p.m. Monday through Friday and from 8:30 a.m. and 11:00 p.m. Saturdays and Sundays, students may be reached through the college switchboard at (704) 233-8000.

Air Travel

It is only a short distance to Charlotte Douglas International Airport, the hub for US Air, where there are also many other flights daily to all parts of the country on American, Delta, Pan Am, TWA, and United.

Awards

Presented annually at commencement

The *Fred H. Allen Award* for Christian Leadership and Service seeks to encourage Wingate students in their Christian faith. An outstanding student is saluted each year in recognition of Christian leadership and service.

The *Budd E. and Ethel K. Smith Award* is presented to the student judged to have made an outstanding contribution through leadership of other students, Christian sensitivity, and moral responsibility.

The *C. C. Burris Award* is presented to the woman who represents the ideals of scholarship, leadership, and service.

The *A. F. Hendricks Award* is presented to the man who represents the ideals of scholarship, leadership, and service.

The *H. K. Helms Award* is presented to a student achieving excellence in scholarship.

Admission, Costs, and Financial Planning

Admission

Persons seeking admission to Wingate College should write for an admissions packet which includes an application and other pertinent information. The completed application should be returned to the Admissions Office. The college operates on a rolling admissions plan. Completed applications are acted upon and candidates are notified within two to three weeks. Admission is based on high school record, SAT or ACT scores, and recommendations. In the case of transfer students, work from all previous colleges attended is also considered. Personal interviews, while not required, are encouraged and often prove beneficial to both the college and the student.

For an application to be considered complete, the following items must be received:

1. Application form
2. Twenty dollars non-refundable processing fee (Twenty-five dollars for international students)
3. High School transcript or G.E.D. certification
4. SAT or ACT scores

Although some flexibility may be allowed, the following high school course distribution is **recommended**:

English	4 units
Math	2 units (algebra and above)
Social Science	2 units
Natural Science	2 units (1 lab)
Foreign Language	2 units

To secure enrollment a prospective student should make a deposit within 30 days after being notified of acceptance by the Admissions Office. This deposit is \$200 for residential students and \$100 for commuting students. If the need arises, an extension may be granted. The deposit is refundable in the event of cancellation of the application by the student provided that a **written** request is received by the Admissions Office no later than May 1st. After May 1st deposits are not refundable.

Entrance Examination

While testing does not always tell the entire story of a student's academic ability, it has proven to be a reliable indication of what the student's classroom performance might be. Therefore, entering students are required to submit scores from either the Scholastic Aptitude Test (SAT) or the American College Testing Program (ACT). The college prefers that these scores be sent directly from the testing centers to the admissions office. Information on test dates and testing centers is available in most high school guidance offices.

International students must submit test scores from the Test of English as a Foreign Language (TOEFL). A score of 500 or better is required for admission.

Provisional Acceptance

Students who do not meet the normal admission requirements may be considered for a special program designed to assist those with academic potential but deficient high school foundations. Provisional Acceptance Program is available to a limited number of students during the fall semester. Instruction in English, mathematics, and study skills provides an opportunity for the student

to overcome deficiencies. Upon successful completion of this work and the recommendation of the Provost of the college, the student may proceed with regular college work.

Reasonable Accommodations

Wingate College does not discriminate against qualified individuals with disabilities. Moreover, as required by law, the College will provide reasonable accommodations to the known disabilities of otherwise qualified applicants for admission or students with disabilities in all education programs, activities, services and practices, including application procedures, admissions, student assignment, course assignment, the awarding of degrees, discipline, withdrawal and dismissal. Educational opportunities generally will not be denied to an otherwise qualified applicant or student because of his or her disability or because of the need to make reasonable accommodations to the physical or mental impairments of such individuals.

Disabled applicants or students who feel they need such assistance should contact the Office of the Vice President for Student Development. A copy of the College's policy concerning Provision of Reasonable Accommodation for Education Programs, Activities and Other Services is also available at the Office of the Vice President for Student Development upon request.

Concurrent Enrollment

High school students who would like to take courses prior to or during their senior year may do so by contacting the Admissions Office. Credit is generally transferable to other colleges and universities.

Early Admission

Students with superior ability and maturity may wish to begin their college work prior to graduating from high school. In addition to normal application procedures, the student must have an interview with a member of the Admissions staff and must submit written verification that proper approval from secondary school officials has been obtained. Admissions decisions are made on a case-by-case basis. For further information, contact the Admissions Office, (704) 233-8201 (Toll free in North Carolina, 1-800-755-5550).

Credit by Examination

Students may earn a maximum of 30 semester hours of credit toward a baccalaureate degree by examination.

Advanced Placement

Students who score three, four, or five on the Advanced Placement Test of the College Entrance Examination Board may receive credit. Scores should be sent to the Registrar's Office.

College Level Examination Program (CLEP)

Students who score 50 on CLEP subject examinations may earn credit toward a baccalaureate degree. Scores should be sent to the Registrar's Office.

Departmental Examinations

See page 33. (Credit by Examination)

Readmission

A student who wishes to re-enroll must complete a Re-admission Application. If the student has attended other colleges, two official transcripts must be forwarded in order to complete the application.

A student who is out of college for more than one semester and is readmitted must meet the requirements for graduation at the time of re-entry

Students who are academically ineligible who wish to apply for reinstatement should submit a written appeal to the committee on Academic Affairs, in care of the office of the Provost.

Transfer Students

Admission

Students who complete course work in another accredited college or university may apply for admission to Wingate. An application must be submitted (as indicated above) and must include transcripts for all institutions previously attended. Transfer applicants must be eligible, both academically and socially, to return to the institution from which they are transferring. Applicants from accredited institutions will be admitted upon recommendation of the Admissions Committee and the Registrar.

Transfer Credit

Academic work completed at accredited colleges and universities will be accepted at full value for courses passed with the grade of 'C' or better; credit for courses passed with a grade below a 'C' will be provisional and subject to completion of the first semester's work at Wingate with an average of 'C' or better. Courses taken at other institutions must parallel Wingate College courses. The maximum number of course hours which may be transferred from a two-year institution is 64 semester hours or 96 quarter hours. Students transferring from institutions which do not grant the baccalaureate degree must complete at least 64 hours on the senior college level. Transcripts of students entering from technical institutes will be evaluated to determine the equivalency of work completed and its applicability to a baccalaureate degree. In some cases, proficiency testing may be required.

Non-traditional transfer agreements exist for the baccalaureate degree programs in Allied Health, Nursing, and Technology. These agreements are explained on pages 151, 159, and 163.

A maximum of 6 semester hours may be earned by correspondence work and/or extension credits.

Transfer students, except Bachelor of General Studies candidates, must possess a 2.00 grade point average on all work attempted at Wingate in order to qualify for a degree from Wingate. (B.G.S. guidelines are explained on page 75.)

General Information

The college operates on a semester basis. Statements are sent approximately one month prior to the beginning of each term. Charges for the semester must be paid before registration may be completed. The college must be notified,

prior to registration, of any financial aid, trust funds, etc., accruing to the student from sources other than Wingate College. If the student expects to receive aid of any type from Wingate College, it must be cleared with the Financial Aid Office prior to the student's arrival on campus.

The student may deduct one-half of the aid for the year, excluding work scholarships, from the first semester's payment.

Wingate College reserves the right - due notice being given - to make such changes in fees and in charges as may, in the judgement of the Board of Trustees, be in accord with sound management.

BUSINESS OFFICE HOURS: 9:00 a.m. - 4:00 p.m., Monday through Friday

Expenses

Charges are based on a maximum student load of 18 semester contact hours. After the tenth day of classes, a student will be billed for extra hours at a rate of \$210 per semester hour. Failing to drop a class by the last day of drop/add means financial responsibility for any hours over 18.

Students taking less than 12 semester hours are classified as part-time students and are charged tuition at the rate of \$210 per semester hour. There is a \$50 General Fee for students taking 7 to 11 hours per semester.

Deposits

A first-time full-time residential student must pay a \$200 deposit prior to enrollment of which \$100 is a room deposit applicable to the first semester of enrollment. A full-time commuting student must pay a \$100 deposit. All part-time students must pay a \$25 deposit prior to enrollment. The deposit will be held throughout the student's educational career at Wingate College. College fees, fines, returned checks, facilities damage charges, and other miscellaneous charges, if not paid in the usual manner, may be deducted from the deposit.

After a student has been enrolled for at least one term, the deposit, less appropriate deductions, will be refunded within 60 days after any of the following:

- a. graduation with a baccalaureate degree,
- b. failure to re-enroll for the fall semester, or
- c. receipt of a written request from a student who is no longer enrolled.

To secure a dormitory room, returning students, including those on scholarship, must pay a deposit of \$100. This deposit is applicable toward the semester's dormitory fee for which it is made, but is non-refundable.

Books and Supplies

Textbooks and necessary class materials are on sale in the Campus Store. A complete line of college supplies is available.

Check Cashing

The Business Office will accept checks only for payment of accounts. It is suggested that an account be established with a local bank.

Refunds

The College makes in advance substantial commitments for the purchase of goods and service based on the number of students completing registration. However, students who officially withdraw (see page 62) from the college through the Director of Student Support Services Office for any reason during the Fall or Spring semesters may be refunded a portion of their payments on the basis of the following schedule:

	TUITION REFUNDABLE
Withdrawal before close of business:	
First Friday of the Semester	75%
Second Friday of the Semester	50%
Third Friday of the Semester	25%
SUMMER SCHOOL	
First day of session	75%
Second day of session	50%
Third day of session	25%
BOARD (meals) payments shall be refunded pro rata, less 10% of the basic charge. Refunds for board shall be computed as of Friday of the week of withdrawal.	
ROOM charges are not refundable.	

ID and MEAL CARDS

In order to receive withdrawal credit for board, a student must submit the Wingate I.D. card (meal card) to the Business Office. Withdrawal may require refunds to some student financial aid programs. This policy applies to students who officially withdraw during any regular session of the College.

Responsibility For Payment

Payment of all applicable basic charges for the semester is due upon registration. The student is responsible for seeing that payments are made.

Insurance

Medical insurance is available to each full-time student. Students who do not wish to participate in this program must sign a waiver and return it to the Business Office prior to registration.

Student Financial Planning

The Wingate College Financial Planning Office welcomes the opportunity to assist students and their families who seek information on scholarships, grants, student loans and on-campus employment. All students who plan to apply for financial aid must complete the Free Application for Federal Student Aid (FAFSA) and the Financial Aid Forms.

Most financial aid programs are awarded on the basis of need as determined by information submitted on the FAF. In order to receive maximum consideration for all available financial aid programs, the FAF should be filed with the College Scholarship Service by March 1 prior to each academic year for which a student wishes to be considered for financial aid.

Financial aid programs vary as do the needs of students. Grant assistance is gift or entitlement aid and carries no repayment obligation. Student loans are long-term, low interest loans, which can be repaid after the student completes his or her education. Many students obtain jobs on the campus and are paid monthly for hours worked.

Financial assistance is awarded in a "package" which may include one or more of the financial aid programs. All financial aid awards, including athletic, academic and outside scholarships are coordinated through the Office of Financial Planning. The total financial assistance awarded will never exceed the costs related to attending Wingate College. When federal financial aid programs are awarded, the total package will not exceed the student's demonstrated need using information provided on the Free Application for Federal Student Aid.

Stat satisfactory Academic Progress

To continue receiving financial aid, students are expected to make satisfactory academic progress by achieving the minimum grade point average as established by the College and successfully completing a minimum of twenty-four (24) credit hours during the academic year.

Scholarships, grants and student loan proceeds may be applied to the cost of attending Wingate College and are generally credited directly to the student's account. Earnings are paid to the student; therefore they are not used as a credit toward a student's account.

State and Federal Aid Programs

North Carolina Legislative Tuition Grant: The State of North Carolina provides a grant to each North Carolina resident enrolled as a full-time undergraduate student in a North Carolina independent college. The amount available to students during 1992-93 was \$1,110. Students who appear to be eligible for this program will be sent the appropriate forms to verify residency.

North Carolina State Contractual Scholarship Fund: Funds for this grant program are made available by the State of North Carolina to aid North Carolina residents. Amounts of the awards will vary. Eligibility for this program is based on state residency and financial need as demonstrated by the Free Application for Federal Student Aid (FAFSA) filed by the student.

Federal Pell Grant: Awards from this federal grant program range from \$400 to \$2,300 during the 1992-93 year. Eligibility is determined by the federal government, to the US Department of Education.

Federal Supplemental Opportunity Grant: Awards from this federal grant program are made to students who demonstrate exceptional financial need.

Federal Work-Study: In this joint federal-college program, part-time employment is made available to students. Students work an average of 10 hours per week and receive payroll checks monthly. The minimum student wage for 1992-93 is \$4.25 per hour. Students who have been employed on the College Work-Study program for more than two academic years will be paid a higher wage.

Federal Stafford Loan Program: Formerly the Guaranteed Student Loan, local lenders in this federal program provide long-term, low-interest loans to students. Payments may be deferred as long as the student is enrolled at least half-time (6 hours). Information on lenders is available through the Financial Planning Office.

Please note that all of the above programs with the exception of the North Carolina Tuition Grant require the filing of the Free Application for Federal Student Aid.

Financial Assistance Alternatives

For families who do not qualify for federal or state financial assistance, or whose financial assistance does not cover the entire cost of college attendance, there are several alternatives. Some of these are listed below. For more detailed information regarding these and other alternatives, please contact the Financial Planning Office at Wingate College.

Equal Payment Plan: Families may divide the cost of tuition, fees, room and board into nine (9) equal payments. There is a \$75 participation fee; however, no interest is charged throughout the year. The payment plan operates on check draft and the first payment is due in June.

Federal PLUS Loan: Lenders who process the Stafford Loan for students also make available the Federal PLUS Loan to parents of undergraduate students. Interest rates are tied to 91-day Treasury Bills. Repayment begins 60 days after disbursement of the loan to the parent.

Federal Supplemental Loans for Students: For the independent student who does not qualify for sufficient need-based financial assistance, this loan is also made by lenders of the Federal Stafford and PLUS Loan Programs. There are provisions for deferment of principal and interest during enrollment.

Note: There is a variety of commercial loans and lines of credit for assisting with the cost of attending college. Please contact the Financial Planning Office for additional information and application information.

Academic Merit Scholarships

These scholarships are administered annually through Wingate College Scholars Competition open to qualified high school students. Students are eligible for only one Academic Merit Scholarship.

Irwin Belk Scholarships (valued up to \$5,000 - full tuition) are available to outstanding students who are in the top 5% of their high school graduating class or have 3.7 Grade Point Average on a 4.0 scale and who have a minimum SAT score of 1200 or ACT of 30.

Renewable for a maximum of eight consecutive semesters. Student must maintain a cumulative g.p.a. of **at least 3.2** and remain consecutively enrolled as a full-time student.

Besides having demonstrated exceptional scholastic abilities, a Belk Scholar should possess high moral qualities, enthusiasm, a cooperative spirit, and high Christian ideals. Awards are based on a competitive interview. Applications should be made early in the senior year of high school.

Trustee Scholarships, valued at \$3,000, are available to outstanding students who are in the upper 15% of their high school graduating classes or have a 3.4 Grade Point Average on a 4.0 scale and have a minimum SAT score of 1100 or ACT of 28. Awards are based on competitive interview. Applications should be made early in the senior year of high school.

Renewable for a maximum of eight consecutive semesters. Student must maintain a cumulative g.p.a. of **at least 3.0** and remain consecutively enrolled as a full-time student

Presidential Academic Scholarships, valued at \$2,000, are available to students who are in the top 20% of their graduating high school class or have a 3.2 Grade Point Average on a 4.0 scale and have a minimum SAT of 1000 or ACT of 26. An interview is required.

Renewable for a maximum of eight consecutive semesters. Student must maintain a cumulative g.p.a. of **at least 3.0** and remain consecutively enrolled as a full-time student

Centennial Academic Awards, valued at \$1,000, are available to outstanding students who rank in the upper 25% of their high school graduating class or have a 3.0 grade point average on a 4.0 scale and have a minimum SAT score of 900 or ACT of 22. Recipients should also meet or exceed the extra scholastic criteria required for the Belk Scholarship. Application should be made during the senior year of high school.

Renewable for a maximum of eight consecutive semesters. Student must maintain a cumulative g.p.a. of **at least 2.5** and remain consecutively enrolled as a full-time student.

Leadership Scholarships

Administered annually through the Admissions Office

Wingate Service Awards, valued at \$500, are given to students of exceptional promise of leadership in some subject area or activity. Available to students in the top 50% of their graduating high school class **and** have a minimum 2.5 grade point average on a 4.0 scale.

Renewable for a maximum of eight consecutive semesters. Student must maintain a cumulative g.p.a. of **at least** 2.2 and remain consecutively enrolled as a full-time student

Transfer Students Scholarships are given normally to students entering Wingate College from other colleges or universities, based upon academic performance and leadership potential. The number of awards is based on availability of funds.

Music Scholarships

Music scholarships, based on a performance audition, are awarded annually to students who plan to major in music. The student must perform two contrasting selections representing an advanced level of study. For more information about the scholarships and the audition dates, contact the Department of Music.

Presidential Academic Merit Scholarships

These awards are granted to rising Wingate sophomores, juniors, and seniors who have distinguished themselves by maintaining a minimum grade average of 3.5. Students who are receiving an Irwin Belk, Trustee, or Presidential scholarship are not eligible for this award. Scholarships are awarded on an annual basis.

Church Vocations Scholarships

(Administered through the Student Financial Planning Office)

Coy Muckle Scholarship

This scholarship was established to assist ministers serving Southern Baptist churches in North Carolina on a full-time basis. The scholarship covers tuition with the student paying only the general fee and any special fees which may be associated with a specific course (see page 36). Additional information and application available in the Student Financial Planning Office.

Ministerial Dependent's Grant

The Ministerial Dependent's Grant at Wingate College grants the spouse, child, or legal dependent of employed full-time by a cooperating Southern Baptist church or an ordained, full-time employee of a Southern Baptist Convention-affiliated State Convention or agency. Baptist ministers \$1,500 per year in financial aid. It is renewable each year contingent upon maintenance of good standing.

The Grant is subject to the following guidelines:

1. The recipient must be accepted for admission to Wingate College, must be a full-time student, and must maintain a 2.00 cumulative grade point average.
2. Students requesting additional financial assistance must complete the Free Application for Federal Student Aid (FAFSA) and the Financial Aid Form (FAF) of the College Scholarship Services.
3. The Grant may be used by a qualified recipient for a total of eight semesters, or until attaining the bachelor's degree, whichever occurs first.
4. The Grant does not apply toward summer session.

5. A limited number of Grants may be available, and they will be awarded on a 'first come, first served' basis.
6. Dependents with exceptional need, as determined by a need analysis, will be offered additional funds.

Foreign Missionary Dependent's Grant

Wingate College recognizes the dedicated service rendered by foreign missionaries of the Southern Baptist Convention each year throughout the world. We are also aware of the financial sacrifice foreign missionaries have accepted as part of their dedicated commitment to Christian service. It is, therefore, the desire of Wingate College to honor foreign missionaries through a grant for their dependents.

The Foreign Missionary Dependent's Grant is valued at \$1,500 per academic year. Dependents with exceptional need, as determined by a need analysis, will be offered additional funds.

Guidelines governing the Foreign Missionary Dependent's Grant are:

1. The recipient must be eligible for regular admission to Wingate, maintain a C (2.0) average, and must maintain full-time student status.
2. The minister whose dependent receives the Foreign Missionary Dependent's Grant must be a full-time missionary with the Southern Baptist Convention Foreign Mission Board.
3. The Foreign Missionary Dependent's Grant may be used by any qualified recipient for a total of eight (8) semesters, or until attaining the bachelor's degree, whichever occurs first.
4. The Foreign Missionary Dependent's Grant does not apply toward summer sessions. However, students may apply for summer-session grants through Wingate's Student Financial Planning Office.
5. Students requesting additional financial assistance must complete the Free Application for Federal Student Aid (FAFSA) and the Financial Aid Form (FAF) of the College Scholarship Service.
6. Students interested in applying for additional grant funds must complete either the Financial Aid Form (FAF) or the Family Financial Statement (FFS).

Questions concerning the Foreign Missionary Dependent's Grant at Wingate College may be addressed to the Admissions Office or the Office of Student Financial Planning.

The Ministerial Dependent's Grant is not available to dependents of foreign missionaries in addition to the Foreign Missionary Dependent's Grant.

Satisfactory Academic Progress Guideline

In order to be eligible for renewal of any type of financial assistance, students must show evidence of satisfactory progress towards graduation. Although certain scholarships and grants require specific grade point averages, students must maintain the minimum requirements as follows:

<i>Total Credit Hours Attempted</i>	<i>Minimum Required GPA</i>
1 - 24	1.4
25 - 56	1.6
57 - 86	1.8
87 or more	2.0

In addition, full-time students must earn a minimum of twenty-four (24) semester hours credit within the academic year, including summer school, to be eligible for financial aid the following academic year. Students enrolled full-time for only one semester must earn a minimum of twelve (12) semester hours. Part-time students must earn the hours attempted.

The academic records of all students receiving financial aid will be reviewed at the end of each spring semester for satisfactory progress. Students not meeting the minimum requirements will be notified and will have the responsibility of making themselves eligible before the beginning of the next academic year.

The maximum period of eligibility for financial aid is ten (10) semesters of full-time enrollment. Exceptions to this rule may be made for compelling reasons. Students denied financial assistance on any of these grounds may appeal in writing to the Financial Aid Appeals Committee. Students will receive written notification of the committee's decision.

Chapter 4

Academic Policies

Wingate College seeks to educate students for a world that is constantly changing. In keeping with that goal, a program has been developed to provide breadth of experience in the liberal arts and to develop in students an awareness of and appreciation for some of the major concerns of the human race. Additionally, the College feels that this broad core of general education should be balanced with a course of preparation for a vocation or profession.

The work done to fulfill the requirements for a degree will fall into three categories: first, the basic requirements necessary for all degrees; second, the additional requirements for a particular degree; and third, the courses in the major and minor fields of concentration and the other courses needed to complete a chosen curriculum. Thus each student will be introduced to the liberating views of diverse disciplines.

Degree Requirements

GRADUATION REQUIREMENTS

To receive the Baccalaureate degree from Wingate College, a student must meet the following requirements:

1. Completion of general education requirements.
2. Completion of a minimum of 125 hours and all requirements for the program of study (major). Programs of study have varying requirements of specific courses and total hours.
3. Completion of a program of study. At least 40 semester hours must be in courses numbered 300 or above.
4. Maintenance of a 2.00 cumulative grade point average on all college work and a 2.00 cumulative grade point average on all courses in the major (including major requirements and all 300-400 level courses attempted in the major). No more than one **D** in a course (4 credit) hours will be allowed in the major. Each department may specify more stringent requirements. Departments may specify grade requirements for certain courses.
5. Completion of lycceum requirement (see page 54).
6. Exit examination in chosen major(s) in the last semester before graduation. This examination is required for accreditation purposes.
7. Completion of at least one year (30 semester hours) of study at Wingate College in addition to practicum, field experience, or internships and at least two years in a senior institution including practicum, field trips, and internships. The last 30 hours completed immediately prior to graduation must be taken at Wingate.
8. Discharge of all financial obligations to the college.

To receive the Associate Degree, (Associate in Arts, Associate in Science, Medical Assisting) a student must meet the following requirements:

1. Completion of a minimum of 63 hours and all required courses listed if a program of study is chosen and the general education requirements, with the exception of Religion 481 or 482. Electives in a program of study are recommended, but are not required. The average grade must be 'C' on all college work.
2. Completion of lycceum requirement (see page 54).
3. Discharge all financial obligations to the college.
4. Completion, at Wingate, of the last 30 hours immediately prior to graduation.

To receive a different Wingate College Bachelor's Degree or a second Wingate College Associate Degree, a student must meet the following requirements:

1. Receive written permission to pursue a second degree from the Provost and the chairperson of the division in which the student wishes to major.
2. Complete all requirements for the second degree.
3. Earn a minimum of 30 additional semester hours in residence after the awarding of the first degree.

Two degrees may not be awarded at the same commencement exercise.

A student is expected to be present at Commencement to receive a diploma. Should circumstances beyond the student's control arise which necessitate absence from Commencement, the student should make written request for permission to the Registrar at least 30 days before commencement.

The college reserves the right to alter graduation requirements and/or to modify academic programs and policies at its discretion. A student's catalog year is that of his entering academic year. A student may request graduation under any catalog published following his enrollment, provided that the catalog is no more than six years old at the time of graduation. A student who is out of college for more than one semester and is readmitted must meet the requirements for graduation at the time of reentry. The college may make reasonable course substitutions when the change of academic requirements prevents the student from completing graduation requirements.

Each student is responsible for learning and meeting the requirements for his/her chosen program of study and for graduation. Neither the student's advisor nor the registrar is responsible for insuring that the student meets degree and graduation requirements.

Students must submit a written request for graduation to the Registrar ten days prior to the beginning of the semester in which the student will complete degree requirements. Forms for this purpose are available from the Registrar.

GENERAL EDUCATION CORE

When a requirement may be met by one of several courses, certain majors may specify which courses will meet these requirements. No more than two courses counted for a major or minor may also be counted for another major or minor (with the exception of a biology and chemistry combination).

Students may not use one course to satisfy two General Education Requirements. A World Awareness course which is used to satisfy the General Education Requirement may not be counted toward a major or minor.

Campus, Community, and Cultural Programs

Wingate College attempts (1) to prepare its freshmen for college life, (2) to introduce students to community service needs, and (3) to expose students to intellectual and artistic events. The following programs are required of all Wingate College students.

Freshman Experience

The Freshman Experience Seminar is a one-hour course taken by all entering freshmen during the fall semester. The purpose of the course is to teach students the skills necessary for a successful transition from high school to college. Specific topics may include goal-setting, decision making, choosing a major or career, time management, study skills, critical thinking, and assertiveness.

Lyceum

Sophomores and Juniors are required to attend one semester of cultural programs and lectures each year. Students may choose from musical and theatrical programs and lectures on topics of current concern. Students whose last names begin with letters A - L register for fall semester Lyceum; those whose names begin with letters M - Z register for spring semester Lyceum. (No academic credit.)

Wingate College and World Awareness

Wingate College is committed to broadening the intercultural experience of its students. To this end, the College requires course work in foreign languages and cultures. A minimum of 6 hours of foreign language is required of every student. If students, after taking the foreign language placement tests, score high enough to be exempted from 3 or 6 hours of foreign language, they will complete the World Awareness component by taking 3 or 6 hours from the following:

- a. a more advanced foreign language course/courses
- b. courses in a different foreign language
- c. Great American Heritage (1 hr.) (see p. 56)
- d. W'international (2 hrs.) (see p. 55)
- e. World Awareness courses

WORLD AWARENESS COURSES

The Wingate College faculty has designated a number of courses that focus on international cultures. These courses include:

Intermediate level or above foreign language
courses

Courses in a second foreign language (French,
Spanish, German)

Art 204, 205

Economics 415

English 201, 205

French 301, 302

Sociology 305, 316

Spanish 301, 302

(Students may not use one course to satisfy two General Education Requirements. A World Awareness course which is used to satisfy the General Education Requirement may not be counted toward a major or minor.)

Wingate W^{international}

Wingate College offers a unique study-tour program called "W^{international}" which makes available an international experience at minimal expense to the student. The program is designed for the junior year.

W^{international} seminars begin in the fall and culminate in a study-travel opportunity of approximately 10 days in another country. Most trips occur during the Christmas recess from approximately December 28 through January 6. A limited number of seminars occur during the spring semester, with tours after Commencement. The college covers basic costs of transportation and lodging, with the aim that a student should be able to participate in W^{international} at little personal cost.

Conditions:

1. All regularly enrolled full-time students at Wingate College have one opportunity to participate in the W^{international} program.
2. Most groups travel to London but other destinations are available with a surcharge. Each year at the W^{international} registration period the surcharge for each course/destination is identified. This surcharge is due at the beginning of the semester of participation.
3. The junior year is the prescribed year of participation, although transfer students must have completed a minimum of one semester as a full-time student prior to participation. A student who does not participate his junior year forfeits his eligibility.
4. Students must have a 2.00 cumulative grade point average by the beginning of the W^{international} semester.
5. To participate in the travel experience, students must first successfully complete the semester-long seminar, which meets at least one hour a week. Students who complete the seminar with a D or higher grade and who complete the W^{international} tour satisfactorily receive 2 credit hours.
6. Students must demonstrate high standards of character and maturity. During the seminars and on the trip, students are obligated to follow the directions of their leaders.
7. Students must pay any debts to the college as well as the \$100 W^{international} registration deposit. This deposit is applied toward tuition for the next semester following the program and is non-refundable.

Great American Heritage Program

Great American Heritage is a study program designed to give Wingate College sophomores an opportunity for an urban experience in a major American city during the spring semester. It is made possible, in part, by the Jessie Ball duPont Religious, Charitable, and Educational fund.

Students who complete the seminar with a D or higher grade and who complete the tour satisfactorily receive one credit hour.

Participating students also must

1. Be classified a sophomore.
2. Have attained a minimum 2.0 grade point average.
3. Have demonstrated high standards of personal maturity, responsibility, conduct, and motivation. (Any student involved in major or minor disciplinary action may forfeit participation in the Great American Heritage program.)
4. Have completed two semesters as a full-time student at Wingate College prior to enrollment in the Great American Heritage Program.
5. Complete the prescribed orientation procedure and pass the half-semester study portion of the seminars.
6. Have all student accounts in good standing.
7. Pay a \$40 deposit. This deposit is applied toward the next semester's tuition.

Wingate - in - London

Each fall semester approximately 20 students directed by a Wingate College faculty member live and study in London. They take courses taught by the faculty director as well as British professors.

The program is open to rising seniors, juniors, and sophomores, in that order, who have at least a 2.0 cumulative g.p.a. and have been full-time for at least one year. Each December information is presented as to the selected director and cost. Students are also selected on the basis of an interview and references in order to determine social compatibility with the group.

Special Programs

HONORS PROGRAMS

College Honors

The honors program at Wingate College challenges students of exceptional ability.

Admission: Admission to the honors program for entering freshmen is by invitation from the Provost who acts on behalf of the Honors Committee. Entering freshmen are selected on the basis of Scholastic Aptitude Test scores, high school records, and recommendations. Students who hold Belk, Presidential, or Trustee scholarships are expected to enroll in the honors program. (For

more information on these scholarships, see p. 41. Exceptional students who are not in the honors program and have a grade-point average of 3.25 on all work attempted may be invited to join the honors program or may apply to the Director of Honors. The Honors Committee will review candidates and issue invitations. Students may join the program at any time before the beginning of their junior years.

Curriculum: The honors program has both a curricular and an extra-curricular component. Typically, students in College Honors will take two honors courses in each semester during their freshmen and sophomore years. Each of these courses will meet a General Education Requirement. In the junior year, students will take at least one broadly based cross-disciplinary course designed to help them see their education synthetically. During the senior year, students will concentrate on special research projects in their majors.

Extra-curricular dimension: The honors student will also have the opportunity to participate in a number of social and educational activities outside the classroom. These will include special events on the Wingate College campus and off-campus excursions.

Honors recognition: Students who successfully complete the College Honors program will receive the designation "College Honors" on their transcripts and diplomas and will be recognized at commencement. In addition, each honors course will carry the designation "H" on transcripts and grade reports regardless of whether a student completes the entire program.

Departmental Honors

Any student may elect to do departmental honors work in the following fashion. Departmental honors is independent of College Honors.

In-Course Honors: Students with a minimum grade-point average of 3.0 with no grade below 'C' may request permission from professors to earn honors credit in a regular class by submitting proposals for extra work and projects in return for special attention and conferences. Proposals must be approved by the department in which honors work will be done not later than three weeks after the beginning of a semester and must meet all guidelines of the department. Students who earn honors credit will have it so designated beside the course number on their transcripts and grade reports (example: History 202H, Math 330H). Professors may have not more than four students doing in-course honors during a semester without permission from the Provost and the Honors Committee.

Departmental Honors Research: The academically superior student at Wingate College has an opportunity to engage in intensive study in a major field through advanced independent research, experimentation, or creative activity. Listed in the catalog and on student transcripts as Honors Research, this study is a two consecutive semester project for which the student earns credit of 2 or 3 hours each semester for a total of 4 or 6 hours credit.

To qualify for admission to Honors Research, a student must have a minimum grade point average of 3.00 on all coursework and a 3.50 in the major field.

An eligible student may register for Honors Research during any regular registration. After the Honors Committee verifies that the student is eligible, the student selects a tentative subject of research and a supervisory professor who is knowledgeable in the chosen field.

In consultation with the supervisory professor, the student designs a proposal in acceptable form outlining the research project and the research tools to be used. This proposal is submitted to the department for preliminary approval. The Honors Committee grants final approval of the proposal.

The student, with direction from the supervisory professor, must complete the project during the period of two semesters. Upon completion of the independent research, the department will evaluate and endorse the project. The approved final draft will then be presented to the Honors Committee for its review.

If the Honors Committee, in consultation with the supervisory professor and department, judges the work to be of superior quality and the student has met all requirements for an honors designation, a recommendation will be made to the Provost that the student receive an honors designation in the major and during Commencement. Honors Research that is judged not to be of superior quality by either the professor, department, or Honors Committee but is judged to be passing will be granted 4 or 6 semester hours of independent study credit in the area of research, but not honors credit.

Departmental Honors Designations: A student may earn honors designations in an academic major by completing one of the following options:

- (1) A minimum of 12 semester hours of honors work in a specific major, with at least 6 of the 12 hours in 300-400 level courses.
- (2) A minimum of 12 semester hours of honors work in a specific major, including 5 semester hours of Honors Research (Honors Research is defined above.)

To earn an honors designation, a student must have a minimum grade-point average of 3.0 on all work and a minimum grade-point average of 3.5 in all honors work within the major. Honors designations are indicated on transcripts, and students who complete an honors program are awarded special recognition during commencement exercises.

LEARNING DISABILITY/DYSLEXIA PROGRAM

This program is designed to assist qualified students with learning disabilities and/or dyslexia to enjoy the various academic degrees, programs and activities offered by the College. Services provided under this program include course selection and scheduling recommendations, degree advising, tutorial assistance and other academic guidance throughout the year. This program is also directed

by an experienced advisor who will work with faculty members and each enrolled student to discuss the types of individualized assistance needed.

For more information, please contact the Office of Admissions.

PROVISIONAL ACCEPTANCE

Wingate College has a Provisional Acceptance policy which will allow a limited number of students with potential for academic success, who otherwise fail to meet the college's criteria for admission, to prove their ability as college students. The program includes certain required course during the student's first semester which will better form a foundation for advanced course work. Small classes and individual assistance are features of this program. If students perform satisfactorily in the program, they are given formal admission to Wingate College at the beginning of the second semester.

Academic Regulations

Academic Programs

Wingate College offers programs of study which lead to associate degrees and to baccalaureate degrees. (See page 70.) Baccalaureate programs allow students to receive the associate degree en route to the baccalaureate degree, if the student chooses.

Specific baccalaureate and associate programs are described under their respective division.

Academic Honors

Students are recognized by the college community for academic excellence. Each semester a Dean's List includes those students who have earned a grade-point average of 3.3 on at least 12 academic hours and have no grade below a C, and a President's List includes those students who have earned a grade-point average of 3.8 on at least 12 academic hours and have no grade below a C.

At commencement, students with a cumulative average of 3.5 or higher are graduated with honors as follows:

<i>Summa cum laude</i>	3.9 and above
<i>Magna cum laude</i>	3.65 to 3.899
<i>Cum laude</i>	3.5 to 3.649

Graduation with honors is determined by the overall grade-point average on all undergraduate work attempted at any accredited school and on all credit attempted at Wingate College. Transfer work cannot raise the Wingate average.

Academic Standards (Probation and Suspension)

Academic Probation is determined by the cumulative grade-point average which a student earns on credit courses. At the conclusion of a semester, the Provost will notify the student by mail if the cumulative average is below the minimum. In such case, the student will be placed on academic probation for the next regular semester. Probation is determined only on the basis of permanent grades at the conclusion of a semester; mid-semester progress reports are not included in grade-point calculations.

The minimum cumulative averages are:

<i>Semester Hours Attempted</i>	<i>Minimum Average</i>
1-24	1.4
25-56	1.6
57-86	1.8
87-above	2.0

A student must have a 2.0 cumulative grade-point average to qualify for the Associate and/or the Baccalaureate degree.

A student who is on academic probation at the end of two successive semesters will be academically ineligible for the next semester. A student who fails all hours attempted will be ineligible to enroll for the next semester.

Students who are academically ineligible who wish to apply for reinstatement should send a written appeal to the Committee on Academic Affairs, in care of the Provost, to review the students' records and make a decision about eligibility.

A student may forfeit academic responsibility by:

1. persistent failure to complete classroom assignments;
2. habitual class absence; or
3. disruption and disturbance of fellow students.

In such cases, the student may be asked to withdraw from the college. Appeals relative to enforcement of this policy may be made through the Provost to the Committee on Academic Affairs.

Classification

A student is considered a freshman upon entry into college and is classified as a freshman until 24 semester hours have been completed. A student is classified a sophomore upon completion of 24 semester hours; a junior upon completion of 57 semester hours; and a senior upon completion of 87 semester hours.

Status

A student who carries 12 semester hours is considered a full-time student.

Overload

Five courses (15-16 hours) are considered a normal course load. A student may choose to take up to 18 hours. Permission to take more than 18 must be granted by the Provost. This permission is not given to students with less than a 2.0 cumulative grade-point average.

After the tenth day of classes, a charge of \$210 is assessed for each hour above 18. There is no refund of this fee.

Advising

Wingate College is committed to providing academic advice and personal guidance for its students. Each student has an advisor who helps plan the student's academic program and meets with the student periodically throughout the year. Freshmen are assigned special faculty and student co-advisors to assist with unique freshman concerns.

Advisors help students develop individual academic programs which include Wingate's specific degree requirements and the student's career objectives. While advisors have resources to aid students in academic planning, the responsibility for meeting the requirements of a specific degree rests with the individual student.

The Director of Advising and the Director of Career Planning and Placement are available to advise students about careers.

Pre-professional advisors in the science-related professions, in theology, and in other professions help students select majors, minors, and electives which will provide adequate preparation for professional post-baccalaureate study.

(Pre-law: see page 72.)

Registration

In order to register for courses, a student must confer with his/her advisor, fill out a course planning sheet, and take the course planning sheet to the Office of the Registrar. The Business Office will bill the student according to the number of hours registered.

Should a student drop a course at any time without official approval from the registrar, the student will receive an 'F'.

Adding and Dropping Courses

A student may add a new course during the first two days of a semester and receive full credit, provided he/she follows prescribed procedures for adding the course and takes responsibility for all work required prior to the time of the addition of the course. A Change of Registration Form is required, and students must request this form from their advisors.

If a student withdraws from a course during the first week of the semester, the course is deleted from the transcript. A student may withdraw from a course at his/her discretion up to one week after mid-semester, and receive a 'W' on the transcript, provided the student secures the approval of the advisor, the faculty member, and the registrar. A student's grade-point average is not affected by a 'W'. A Course-Drop Form, which must be obtained from the advisor, is required for this procedure.

A student may not withdraw from a course after one week after mid-semester.

After the third Friday of a regular semester, students will not be refunded money for courses dropped.

Withdrawal From College

Any student voluntarily leaving the college before the close of the term must withdraw officially. The student initiates the withdrawal procedure in the Office of the Director of Student Services, whose office is in the Holbrook Building. The withdrawal form must be signed by the various college officials listed on the form. The withdrawal process is completed at the Business Office. If a student withdraws up to one week after mid-semester and has settled all accounts with the college, he or she will be given an honorable dismissal and will receive "W's" for the semester's courses.

In extenuating circumstances a student may withdraw from college after one week after mid-semester, only with approval of the Provost. The Provost has the sole authority to assign the grade of "W".

Academic Bankruptcy

A student who has earned poor grades which may prevent him or her from graduating may petition the Committee on Academic Affairs for academic bankruptcy for one complete term or for consecutive terms including all work prior to a given date. The bankrupt term(s) is noted on the student's transcript and the student forfeits credit for all courses during that term(s). Grades from the bankrupt period are not calculated in the student's grade point average, although they remain on the transcript. All grades are included in the calculation of the grade point average for honors at graduation.

To be considered for bankruptcy, a student must demonstrate that:

1. poor performance for the term(s) for which bankruptcy is requested is not typical
2. poor performance was due to extenuating circumstances
3. the cause of the poor performance has been alleviated, and the student has demonstrated responsible scholarship.

Once bankruptcy status has been granted, the action is irreversible. A student may request bankruptcy one time only.

Students who are granted bankruptcy may request a letter of explanation to accompany the transcript when sent to a prospective employer or to other institutions.

Certain colleges, universities, and professional schools will not honor a bankruptcy policy.

Class Attendance

Regular class attendance is a student's obligation and a student is responsible for all the work, including tests and written work, of all class meetings.

Each faculty member defines his/her own absence policy and so informs students on the first day of classes. Students who represent the college at officially recognized activities are responsible for making necessary plans for class absence with each professor in advance of the absence.

The college maintains the regular schedule of classes throughout the semester. Classes are not cancelled due to inclement weather (i.e. snow, sleet) and students are responsible for all the work of class meetings missed due to inclement weather.

Evaluation and Grading

Students are evaluated continually during the semester and grades are assigned at the conclusion of the course. Final examinations are given on work covered during the entire semester.

The following grading symbols are recorded:

- A - Excellent
- B - Above average
- C - Average
- D - Passing
- F - Failure
- P - Pass (for courses offered on P-F basis)
- H - Pass with honors (for courses offered on P-F basis)
- I - Incomplete (see below)
- CE - Credit by Examination
- W - Withdrawal

Minus (-) and plus (+) may be attached to each grade of 'A', 'B', 'C', and 'D', but do not affect the quality points assigned for those grades.

The grade of 'I' indicates that some requirement of the course is not yet complete. A student receiving an 'I' is expected to initiate steps with the professor to change this grade. A grade of 'I', which has not been changed before 30 calendar days of the next regular semester have elapsed becomes an 'F'. An extension may be granted by the Provost upon written request of the professor.

Progress reports indicating courses on which the student is earning less than a 'C' are issued at the middle of the semester to Freshman and Sophomore students. These do not become a part of the permanent record. Grades issued at the end of each semester make up the student's transcript.

Records of progress are kept by the college on all students, and grades are issued at the end of each semester.

The student's grade-point average is calculated by dividing the quality points received by the number of hours attempted. The grade of 'A' carries four quality points per credit hour, a 'B' three, a 'C' two, and a 'D' one quality point.

A course in which credit is given on a P-F basis is not used in the calculation of the grade-point average if a grade of 'P' is earned. The grade of 'F' on a P-F course is used in the grade-point average calculation. An average grade of 'C' (2.00) on all hours attempted is required for graduation.

Repeat Course Policy

A student may not register for a course which was previously completed with a grade of 'C' or above. If a student repeats a course on which a grade of 'D', 'F', or 'WF' has been earned, only the last grade is used in the calculation of the grade point average. A course may be repeated twice. All grades are shown on the transcript. All grades are included in the calculation of the grade-point average for honors at graduation. This policy applies only to courses taken and repeated at Wingate College. The student is responsible for informing the registrar's office any time a Wingate College course is repeated.

Transient Study

Wingate students who wish to take a course or courses at another institution and transfer that credit to Wingate should obtain permission from the Registrar's office prior to taking the course. Permission is generally not given to students to take required courses at another institution. A student must have a cumulative 2.0 average to obtain permission to take a course at another institution and transfer the credit for that course to Wingate College.

While transfer credits are accepted from other institutions, course work taken at other institutions does not raise a Wingate student's cumulative grade-point average. It will be considered in determining honors designations, although it cannot raise the Wingate average.

Transcripts

The official academic record (transcript) for each student is maintained in the Office of the Registrar. A student has access to the record during normal office hours.

A student may receive copies of the transcript for personal use or may request the transcript be mailed. Such requests must be made in person or in writing. The first copy is free; additional copies are \$2 each.

Transcripts will not be released if the student's account with the college is delinquent.

Writing Intensive Requirement

The Wingate College faculty has designated a number of courses that include a significant writing component. These courses are:

Accounting 312, 427, 428, Business 312, 324, Economics 301, 302, 314, 410, Chemistry 202, CIS 401, Education 330, 317, 358, 331, Art 104, 204, Music 305, 306, 470, English 360, Biology 205, Math 401, Recreation 430, History 401, 402, 403, 404, Physical Education 405, Psychology 409, Religion 341, 342, Sociology 330, Sports Medicine 400.

Auditing

Students may audit courses with the permission of the professor and the Registrar. If it causes an overload, or if the student is part-time, the audit fee of \$100 is charged. This fee is not refundable if the student withdraws from the course for any reason. Audit status may be changed to credit status only within the first four weeks of the semester and upon additional payment of tuition required for part-time credit or overload credit, if either applies. (See page 36) A for-credit course may not be changed to audit status once the withdrawal period has lapsed (one week after mid-term). This change requires approval of the professor and the Registrar.

Foreign Study and Travel - Credit

Students participating in programs of international travel and study under authorized leadership may apply for elective academic credit. A copy of the itinerary and/or transcript must be filed with the Registrar. Credit is determined by the Registrar.

Charlotte Area Educational Consortium

Wingate participates, with twelve other institutions of the greater Charlotte area, in an educational consortium. The purpose of the consortium is to facilitate cooperation and to make available to students at member institutions opportunities available on other member campuses.

Wingate students enrolled as full-time undergraduate students may take courses offered on the campus of the ten other Charlotte area cooperating schools. Cross-registration is done on a space-available basis on the campuses to be visited, and the students are not required to pay additional fees.

Wingate students provide their own transportation. Details for cross-registration are available from the Registrar.

Independent Study

Independent study involves an arrangement between a student and a professor approved by the student's advisor for exploration of a particular subject or topic. The arrangement is normally initiated by the student who has in mind specific goals.

Candidates for the baccalaureate degree are encouraged to complete one course of independent study; some programs require at least one course of this nature. Each division offering a baccalaureate program has a course numbered and identified as independent study. The course may count toward the requirements for the major or as an elective, if a student wishes to pursue independent study in a non-major area.

Each independent study arrangement must be approved both by the chairperson of the division in which the student is doing the study and the Provost at least 30 days prior to the onset of the study itself. Ordinarily, a student may enroll in only one three-hour independent study each semester. A 2.00 cumulative quality point average is required for all students engaging in independent studies.

Students whose preparation and experience offer the opportunity for a highly individualized baccalaureate program may, in consultation with the advisor, present for approval a program with a large component of independent study. Students whose baccalaureate plan includes more than nine hours of independent study in addition to a maximum of 12 hours in a practicum, field experience, internship, etc. must submit an outline of their baccalaureate program to the Academic Affairs Committee for approval.

Independent Studies should be completed by the end of the semester in which the student is enrolled for that particular course. Incompletes are to be given only for medical and extenuating circumstances. Completion deadlines must be rigidly maintained.

Directed Study (Courses by appointment)

In rare instances, it may be necessary for a student to take a catalog course on an individual basis. Such a request must be approved by the Division Chairperson and the faculty member who is to teach the course.

Approval is granted only under certain conditions:

1. The student must have a cumulative grade-point average of 2.00.
2. A student will not be allowed to take a directed study course to repeat a course in which a grade of 'D' or 'F' was previously earned.

Practicum, Field Experience, and Internship

Baccalaureate programs at Wingate College may include practical experience as a major constituent. Plans for practicums should be made with both academic competency and career plans in mind. Experience should integrate various elements of the student's academic program. This experience should be planned by the student and the advisor, and approved by the Provost at least 30 days prior to the beginning of the experience. Credit may vary from 3 to 12 semester hours, depending upon the nature of the experience, its intensity and/or duration. This determination will be made by the student, the advisor, the divisional committee on independent study and practicums, and the Provost.

The student pays tuition and housing charges for the duration of the practicum. However, board fee for this period is not assessed unless the student resides full-time on campus. If the student is coming to the campus only for various periods of evaluation, meals may be purchased in the dining hall on a per meal basis.

Summer Session

In summer session, a student may complete up to 6 semester hours per term. No tuition refunds are made during summer enrollment once classes have begun.

Students may withdraw from summer school up to one day after mid-term without academic penalty.

The same high standards of the college are maintained with regular faculty members serving as instructors. Living accommodations and recreation facilities of the regular session are available.

For information concerning admission, course offerings, and other matters contact: Director of Admissions, Wingate College, Wingate, North Carolina 28174.

Evening Courses

Opportunity is offered for students to take courses for college credit or personal enrichment during evening hours. Evening courses are generally taught by full-time faculty.

For information concerning admission, course offerings, and other matters, contact Director of Admissions.

R.O.T.C.

Wingate College has a cooperative program with UNC at Charlotte under which Wingate students may enroll in the U.S. Army Reserve Officers' Training Program (ROTC). Both men and women are eligible for this program and must travel to either the UNC-C campus or the Charlotte Reserve Center to take instruction and training.

Wingate College also offers the voluntary Air Force Reserve Officers Training Corps (AFROTC) Program in cooperation with UNC at Charlotte within the terms of the existing agreements between member schools of the Charlotte Area Educational Consortium. The program is available to all students with at least two years of education remaining.

Detailed information on these programs is available in the Registrar's Office and from the Department of Military Science, UNC-C, Charlotte, NC 28223. Phone: (704) 547-2411 (collect if long distance).

Credit By Examination

Students may earn a maximum of 30 hours toward the baccalaureate degree by examination.

A maximum of 15 hours may be earned by satisfactory scores of three, four, or five on the Advanced Placement of College Entrance Examination Board (CEEB) achievement tests, or for college level work completed at an accredited college while the student is enrolled in secondary school. An additional 15 hours may be earned on subject exams of the College Level Examination Programs (CLEP).

Wingate will allow credit for a maximum of 15 hours for DANTES courses which are compatible with the curriculum of Wingate College and on which the student score ranks at the minimum of the fiftieth percentile of the testing group.

Credit by departmental examination is available for full-time students enrolled in any course that Wingate College teaches, subject to the following restrictions:

1. A student may earn no more than 6 hours credit by departmental examination in any given semester.
2. A full-time student may request the opportunity to demonstrate proficiency at any time prior to mid-term. Before an exam is given, the student must pay a \$75 non-refundable fee to the Business Office. If proficiency is demonstrated in the first week of classes in any semester, the student will be permitted to enroll in another course.

3. Students enrolling in another course in a given semester will pay a fee of \$235 for each credit hour over 18 if the total credits attempted in that semester exceed 18.
4. In any course involving laboratory experience, credit by examination must be earned by separate examinations in the lecture and laboratory portions of the course.
5. Courses requiring proficiency in specific methods and/or techniques (performance groups, supervision, and/or observations in the field) are excluded from any credit by examination.
6. The examination and its evaluation will be a collective decision of the division faculty.
7. Part-time students must pay a \$75 non-refundable fee to the Business Office before an examination is given. Additionally, if the student passes the examination, the student must pay to the Business Office one-half of the current per-semester-hour charge for the credit earned. Payment of all fees must be made to the Business Office prior to the recording of the grade on the student's transcript.

Chapter 5

Programs of Study

Degrees

Wingate College offers majors which lead to masters, baccalaureate, and associate degrees. Baccalaureate degree offerings include the Bachelor of Arts, Bachelor of Science, Bachelor of Music, Bachelor of Music Education, Bachelor of General Studies, Bachelor of Science in Allied Health, Bachelor of Technology, and Bachelor of Science in Nursing degrees. Associate degree offerings include the Associate in Arts and Associate in Science. Students pursuing a baccalaureate degree may elect to receive the associate degree en route to the baccalaureate degree.

The graduate programs are described in this bulletin beginning on page 169.

Baccalaureate Majors

Wingate College offers forty majors at the baccalaureate level. Students choose at least one major. Requirements for majors are explained within their respective academic divisions. Should a student pursue a second major, no more than two courses from the primary major can be counted toward the second major(s). Majors include:

The Bachelor of Science in Allied Health, Bachelor of General Studies, and Bachelor of Technology degree programs are cross-disciplinary, non-traditional experiences, giving the student flexibility in creating an individual curriculum. These programs are described on pages 151, 75, and 163 respectively.

Minors

To complement a major, students may choose a minor (minimum of 18 semester hours) in one of 30 areas. Minors are not required. Minors do not have to be in the same academic division as the baccalaureate major. For example, a student may choose a Human Services major and elect to pursue an 18-hour minor in management.

Each division defines minors in each discipline in which a minor may be earned. (See below.) No more than two courses counted for a major may also be counted for a minor. Likewise, no more than two courses counted for a minor can count toward another minor (with the exception of a biology and chemistry combination). Possible minors include:

- Accounting
- Aquatics Management
- Art
- Biology
- General Business
- Chemistry
- Coaching
- Computer Information Systems
- Economics
- English
- Family Studies
- Finance
- French
- History

Associate Programs

Associate degrees are offered in three (3) majors. These majors are generally completed at the end of the sophomore year. Associate majors include:

Business Administration
 Accounting Emphasis
 Management Emphasis
General Education
Medical Assisting

Students may elect to choose an associate degree in general studies either en route to the baccalaureate degree or as a terminal degree. This general studies associate degree requires completion of all required general education courses listed on page 51 and the fulfillment of the 63-hour minimum requirement for an associate degree (with the exception of Religion 481 or 482). (See page 52.)

Electives

The student and advisor should plan carefully electives which compliment the desired major. Electives may be chosen from any course offered in the college provided pre-requisites are met. A student should consult with the advisor in choosing electives which will meet degree and career objectives.

Explanation of Terms

Course numbers have the following meanings:

090-099	Developmental Courses. Do not fulfill graduation requirements.
100-199	Designed primarily for freshmen, but may be taken by all students.
200-299	Designed primarily for sophomores, but may be taken by all students.
300-399	
400-499	Designed for juniors and seniors.
500-699	Graduate courses.

Courses numbered below 100 will not count toward meeting degree requirements.

The Bachelor of General Studies

The Bachelor of General Studies degree program is for non-traditional students and for individuals whose college careers may have been interrupted. A student interested in the B.G.S. degree must consult with the Registrar before applying for candidacy. To apply for candidacy the individual should have completed at least 40 semester hours of college work and application should be made one academic year prior to the anticipated date of graduation. Prospective B.G.S. students should note the following information and guidelines.

1. The B.G.S. is non-traditional degree without a major, designed to give the student a personal curriculum. It is not intended to meet professional certification standards and it is not intended to prepare the student for a particular vocation.
2. The B.G.S. degree has no general education or distribution requirements.
3. The following regulations apply to the Bachelor of General Studies degree.
 - a. A student must earn a total of 125 semester hours.
 - b. A student must complete at least one area of concentration. Concentrations are described on page 73 (minors).
 - c. Courses numbered below the 300 level may not apply toward completion of a concentration.
 - d. A student must successfully complete 40 semester hours of course work numbered 300 or above (including transfer courses).
 - e. A student must attain a minimum 2.0 grade point average on all work attempted at Wingate College.
 - f. A maximum of 90 semester hours may be transferred from other accredited institutions; however, no grade below 'C' may be transferred to Wingate College. Credits transferred from a two-year institution may not exceed 64 semester hours.
 - g. Credit for any course may apply toward a degree only once, even if the course is repeated.
 - h. The last 30 semester hours must be completed at Wingate College.
 - i. A student must successfully complete Science 301 and Humanities 301 within the first two semesters after acceptance into the B.G.S. program.
4. To be admitted to candidacy for the B.G.S. degree, the student must:
 - a. visit the office of the Registrar for an initial conference, credit evaluation, advising, and development of a personal plan of study;
 - b. submit a letter to the Registrar requesting permission to enter the B.G.S. degree program, giving reasons for seeking the degree and indicating awareness of the practical usefulness of the degree. The letter should conclude with a detailed personal plan, including

- courses to be taken and an anticipated date for graduation, as worked out in conference with the Registrar; and,
- c. the student's personal plan must be accepted and approved in writing by the Provost. The student becomes a B.G.S. degree candidate after the personal plan has been approved.

Pre-Law

There is no specific course or curriculum for Pre-Law. Rather, the student is urged to consider those courses which will best enable him/her to develop the characteristics and qualities listed as criteria for admission, and to develop the ability to analyze problems, arrive at proper decisions, and to enunciate those decisions fully both orally and in writing. Among the courses usually included in the preparation for law school would be such as history, English, composition, speech, economics, accounting, business law, and government. There are any number of majors which, with appropriate electives, will prepare the student for entry into law school and the noble profession of law.

The student planning to attend law school is urged to meet with a Pre-law Advisor not later than during his/her sophomore year. Admission to a professional school, such as law, demands that preparation be commenced far in advance of formal application for admission.

Admission to law school is usually based upon a number of criteria, including the applicant's academic record and a bachelor's degree, the Law School Admission Test (LSAT) score, formal application, letters of recommendation/evaluation, and other factors such as employment experience, extra-curricular activities, community involvement, commitment to high standards of morality and ethics, reasons for wanting to study law, competence in writing and speaking, emotional stability, maturity, initiative, motivation, and any other relevant information. The purpose of screening applicants for admission is to determine the probability of the student's success in law school and in the practice of law.

Competent, individual advice in the selection of courses and general counselling are of inestimable value to the Pre-Law student. The Faculty Advisor Program of Wingate College is uniquely capable of guiding the undergraduate student in the preparation for graduate professional education.

School of Business

Dean: Charles F. Palmer

Professors: Doss, Graham, Kosak

Associate Professors: Haskins, Pitts

Assistant Professors: Berg, Crawford, Getachew, Hayes, Katter, Nicholson, Olsen

Lecturers: Christopher, Sutton

Department Coordinators

Accounting	Mrs. Dorcas Berg
Computer Information Systems	Mrs. Anne Olsen
Economics	Dr. Veda Doss
General Business.....	Dr. Charles Palmer
Management	Dr. Hampton Pitts

The purpose of the School of Business is to give the student a fundamental knowledge of the functions and processes of business and a basic understanding of the workings of the American economy. Wingate, through instruction in specific business disciplines, aids in the development of broad skills in administrative disciplines, and supplements business studies with courses from liberal arts.

A B.S. or B.A. degree is offered in Accounting, Computer Information Systems, or Business Administration with emphases in general business, accounting, economics, and management. B.S. degree candidates will meet their requirements through additional intermediate level general education requirements through additional intermediate level general education requirements in mathematics and/or laboratory science. B.A. degree candidates will meet their requirements through additional intermediate level general education requirements in foreign language and literature. An Associate in Science degree is offered in business administration.

A Master of Business Administration is offered. This program is designed to provide working professionals the advanced training necessary to prepare them for top management positions. For further details, consult the separate catalog for the MBA program and page 174 of this catalog.

All Business and Economics majors are required to demonstrate competency/skill of 25 words per minute in keyboarding prior to graduation. Business students will be advised to complete this requirement during their Freshman or Sophomore year by registering for Business 102.

All Business and Economics majors are required to take an exit examination in business in the last semester before graduation. This examination is required for accreditation purposes.

School of Education

Dean: Robert Shaw, Ed.D.

Professors: R. Shaw, C. Thompson, H. Thompson

Associate Professors: Harrison-Burns, Pearce

Assistant Professor: Feiker

Department Coordinators

Elementary Education	Dr. Mary B. Pearce
Middle Grades Education	Dr. Sarah Harrison-Burns
Secondary Education	Dr. Howard Thompson
Special Subjects (K-12)	Dr. Kenneth Murray

The School of Education houses the Wingate College Teacher Education Program and offers nine majors (10 certification areas): Elementary Education (K-6), Middle Grades Education (6-9), Biology and Chemistry Education (9-12), English and Education (9-12), History and Education (9-12), Mathematics and Education (9-12), Art and Education (K-12), Music Education (K-12), and Reading (K-12)/Elementary Education.

The Wingate College Teacher Education Program is designed to meet the North Carolina Competencies and Guidelines for Approved Teacher Education Programs. Teaching preparation is within the context of a well-rounded liberal arts education, integrated with the principles of a Christian institution. This program is committed to early identification of education majors and early observation and participation experience in the public schools.

The model of the Teacher Education Program is The Effective Facilitator of Learning, which encompasses three overall goals:

To facilitate the development of:

1. The Teacher as Generalist and Specialist
2. The Teacher as Scientist and Artist
3. The Teacher as a Thinking, Ethical Decision-Maker.

The more specific objectives of the Program that lead to fulfillment of these goals and the model are:

The student will:

1. Develop a broad knowledge and understanding of the liberal arts, including language, literature, religion, fine arts, history and the social/behavioral sciences, world awareness, mathematics and the natural sciences, and physical fitness.

2. Develop moral, spiritual, and ethical concerns of life and culture in America and internationally and demonstrate the abilities to practice these values and ethics through thoughtful decision-making.
3. Develop a broad and in-depth knowledge and understanding of the subject area(s) to be taught.
4. Develop a knowledge and understanding of the historical and philosophical foundations of education, curriculum and instruction, theories of learning, child growth and development, characteristics and needs of the special child, effective teacher behaviors, and methods and techniques for instruction and evaluation of all children.
5. Develop and enhance abilities and competencies in effective teaching behaviors and adaptive planning, instruction, and evaluation through supervised pre-student teaching field experiences appropriate to subject and level of certification.
6. Demonstrate and refine effective teaching behaviors and adaptive planning, instruction, and evaluation through a supervised fifteen-week student teaching experience appropriate to subject and level of certification.

Three areas of study comprise each program of study: General Education Requirements, Professional Studies, and Specialty Studies. These components allow the student to develop an understanding and appreciation of the liberal arts, the specific field of education, and the area of specialization.

ENTRANCE REQUIREMENTS FOR THE TEACHER EDUCATION PROGRAM

Transfer Credit for Education Courses

Wingate College and its School of Education will accept for transfer credit and for fulfillment of certification program requirements all education courses and the course, Mathematics for Elementary Teachers, or their equivalents, if taken at an institution of higher education that has an NCATE, NASDTEC, and/or state-approved teacher education program.

Degree-Seeking Students

Students may be admitted to a teacher education major upon satisfying the requirement and being approved by the Teacher Education Committee.

1. The student must submit a formal application to the Teacher Education Committee after completing forty-five semester hours of college work. A brief autobiography and photograph must accompany this application.
2. The student must have a cumulative grade point average of at least 2.5 at the time of application and maintain at least a 2.5 through graduation.
3. The student must have passed at least one course in education at Wingate College and must have a minimum of fifteen clock hours of field experience in an elementary, middle, or secondary school.

4. The student must successfully meet the minimum score requirements of the Communication Skills Core Battery Test and the General Knowledge Core Battery Test.
5. The student must have a minimum grade of "C" in English 101 and 102. Additionally, Elementary Education applicants must have a minimum grade of "C" in Math 105.
6. The student must provide three references from college instructors. One of these recommendations should come from an instructor in education.
7. One or two letters of recommendation from any source may be included in the student's file at the student's request.
8. The student must be interviewed by at least one education instructor.
9. The Teacher Education Committee reserves the right to deny admission or continuance in the program to any student who has demonstrated a lack of academic competency, a sense of responsibility, effective interpersonal relation skills, or high moral standards.
10. Exceptions to the above policies may be recommended by the Director of Teacher Education and approved by the Teacher Education Committee.

Certification-Only Students

A. Initial Certification

Students holding Baccalaureate degrees who wish to seek initial certification must be admitted to the Teacher Education Program before being allowed to student teach and before being recommended for certification.

A student may be admitted to the Teacher Education Program upon satisfying the following requirements and being approved by the Teacher Education Committee.

1. The student must submit a formal application to the Teacher Education Committee after completing 12 semester hours of college work at Wingate College. A brief autobiography and photograph must accompany this application.
2. The student must have a cumulative grade point average of at least 2.5 on the post-Baccalaureate course work taken at Wingate College at the time of application and must maintain a 2.5 through student teaching.
3. The student must have passed at least one course in education at Wingate College and must have a minimum of fifteen clock hours of field experience in an elementary, middle, or secondary school. This field experience must be an evaluated part of an education course taken at Wingate College.

4. The student must successfully meet the minimum score requirements of the Communications Skills Core Battery Test and the General Knowledge Core Battery Test.
5. The student must have a minimum grade of "C" in English 101 and 102. Additionally, Elementary Education applicants must have a minimum grade of "C" in Math 105.
6. The student must provide three references from college instructors. One of these recommendations should come from an instructor of education.
7. One or two letters of recommendation from any source may be included in the student's file at the student's request.
8. The student must be interviewed by at least one education instructor.
9. The Teacher Education Committee reserves the right to deny admission or continuance in the program to any student who has demonstrated a lack of: (1) academic competency, (2) a sense of responsibility, (3) effective interpersonal relationship skills, or (4) high moral standards.
10. Exceptions to the above policies may be recommended by the Director of Teacher Education and approved by the Teacher Education Committee.

Program requirements for the student seeking only initial certification will be determined by review of the student's college transcript by the Director of Teacher Education. All requirements in Professional Studies, the Specialty Studies, Speech and Health must be met. In addition, the student may be required to take certain General Education Requirements as preparation for the Core Battery Tests. The Director of Teacher Education reserves the right to require a student to retake an education course at Wingate College.

B. Adding an Area of Certification

A student wishing to add another area of certification to a current or expired certificate will be required:

1. To meet all requirements for the Specialty Studies.
2. To meet all requirements for the Professional Studies. Student teaching will be required if the additional area of certification is significantly different from the initial area of certification as determined by the Director of Teacher Education.
3. To meet the minimum score on the NTE Area Test.

PROGRESSION IN THE TEACHER EDUCATION PROGRAM

The 50% Rule

The North Carolina Quality Assurance Program limits the progression of undergraduate candidates in teacher education programs to introductory courses only and to no more than one-half of the total professional studies core courses, exclusive of student teaching, until formal admission requirements have been satisfied.

The Professional Studies Core requirements, exclusive of student teaching, of which not more than three (3) courses may be taken prior to meeting ALL entrance requirements for formal admission to the Teacher Education Program are the following:

Education 205, 301, 305, 330

Psychology 301 or 302

Education 342 or 322

A student must satisfy ALL conditions for full admission not later than the end of the first semester following that in which initial application was made.

Student Teaching

A student must have completed all program requirements in a satisfactory manner prior to student teaching.

A student must have a cumulative grade point average of at least 2.5 overall and at least 2.5 in the specialty area(s) in order to student teach. The specialty area is comprised of the Professional Studies Core and the Specialty Studies Core. (A minimum grade of "C" is required in each course.)

Application for permission to student teach is made to the office of the Director of Teacher Education during the semester prior to the anticipated student teaching. Students who meet the requirements outlined in the Teacher Education Handbook will be allowed to student teach.

The Wingate College Teacher Education Program does not require student teaching of lateral entry students who can supply adequate documentation of effective teaching skills. Verification of the skills may require on-site supervision by a Wingate College Education professor.

PROGRAMS OF STUDY

The School of Education offers nine majors and ten certification areas. Objectives for each program are listed in the Teacher Education Handbook.

DEPARTMENT OF COMMUNICATIONS STUDIES

Goals and Objectives

The Department of Communications Studies exists to offer high quality interdisciplinary instruction to students enrolled in the Communications program and to general college students. The program emphasizes both theory and application of the various communication arts. Students may choose one or more of the following disciplines for emphasis: Journalism, Public Relations, Speech Communication, and Media Arts.

The specific objectives of the department are to:

Offer baccalaureate degrees in Communications which are appropriate to the students served.

Offer Public Speaking and other courses of general interest as components of the college's general education requirements.

Offer elective courses in Communications for the general student population.

Offer writing opportunities through the college yearbook and newspaper.

Offer the opportunity to participate in intercollegiate forensics, both public address and oral interpretation of literature.

Offer students television production opportunities through the college's television studio and cable television channel.

Provide cable television programming for the general campus community and the public.

Area of Emphasis Goals

The Journalism emphasis is designed to prepare the student to function effectively in various news-related pursuits.

The Public Relations emphasis is designed to prepare the student to function effectively as the communications link between organizations and their public.

The Speech Communication emphasis is designed as a generalist's degree, providing both breadth and depth in human communication.

The Media Arts emphasis is designed to prepare the student to function effectively in the areas of sound and moving image.

DEPARTMENT OF MUSIC

Goals and Objectives

The Department of Music exists to provide music instruction of high quality to students enrolled in music degree programs and to general college students.

The specific objectives of the department are to:

Offer baccalaureate degrees in music which are appropriate to the students served.

Offer Music Appreciation and Humanities courses as options for the Fine Arts component of the college's general education requirements.

Offer elective courses in music for the general student population.

Offer performance opportunities in instrumental and vocal ensembles for all students.

Offer concerts, recitals, and master classes for music students, the campus community, and the public.

Degree Program Goals

The Bachelor of Music in Performance curriculum is designed to bring the student to the highest level of achievement on a principal performing instrument (piano, organ, voice, or guitar), supported by studies in advanced musicianship.

The Bachelor of Music in Church Music curriculum is designed to prepare the student as a performer, to develop knowledge of the history of church music, and to develop techniques for implementing a complete music program in the church.

The Bachelor of Music Education curriculum is designed to prepare the student for certification to teach general music as well as choral and instrumental music in public schools, grades K - 12.

The Bachelor of Arts in Music is designed for the study of music within a liberal arts curriculum which emphasizes the literature of music and includes studies in musicianship and performance.

The curriculum for the Bachelor of Arts in Music with an Emphasis in Business is designed to develop knowledge and skills in both major disciplines and then focus on a business career related to music.

The curriculum for the Bachelor of Arts in Music with an Emphasis in Communications is designed to develop knowledge and skills in both disciplines and then focus on a communications career related to music.

Requirements for music majors

Placement Audition. Persons wishing to pursue a music degree must audition for the music faculty on their principal instruments prior to their first semester of study at Wingate College. The purpose of the audition is to identify the performance level of the student.

Principal Performance Study. A student will select one instrument (organ, piano, voice, band instrument, or guitar) for concentrated study as per the requirements of the particular program of study in music being pursued.

Students in the Bachelor of Music in Performance curriculum select either guitar, organ, piano, or voice for principal performance.

The incoming vocal principal should be able to perform by memory, to sing on pitch, and to phrase musically. In addition, a rudimentary knowledge of piano is expected as displayed by the playing of a simple melodic line.

Entering keyboard students (piano and organ principals) should be able to demonstrate proficiency in playing scales and arpeggios (major and minor) and should have performed works such as the following: Bach-Inventions; sonatinas or sonatas by Clementi, Mozart and Haydn; Chopin-Preludes; Mendelssohn-Songs Without words; and 20th century compositions.

A prospective instrumentalist should consult with the director of bands concerning appropriate music for the audition.

Preparatory Performance Study. If deficiencies in the area of the student's principal instrument are identified by the music faculty during the placement audition, the student will be required to register for Preparatory Performance Study 111, 121, etc. until proficiency for Principal Performance Study 112 is attained.

Secondary Performance Study. Each student (B.A., B.M., B.M.E.) must study four semesters on one instrument for four hours of credit. It is recommended that these hours be taken consecutively. B.M.E. students must have at least one semester of vocal study.

Performance Study Examinations. Each music student enrolled in private applied study will have a performance study examination at the end of each semester. Guidelines are available in the department office.

A *Theory Placement Examination* is given to all entering students wishing to pursue a music degree. The exam includes the fundamentals of notation (pitch and rhythm), tonality, scales, interval and triad structure.

Piano Proficiency. Students pursuing the B.M., B.M.E., or B.A. in Music degrees must complete all portions of the piano proficiency prior to the semester in which the Junior Recital is to be given. The student will not be allowed to give the recital without the completion of this requirement:

1. Sight read any hymn (selected by the examiners) at an acceptable tempo.
2. Perform, from memory, a solo composition from the standard piano literature.
3. Play the accompaniment of an art song with a soloist also performing. The selection of the art song must be given prior approval by a member of the piano faculty.
4. Sight read, from a choral open score, two lines (e.g. soprano and tenor, or alto and bass). The work will be selected by the examiners.
5. Be able to play all major and minor scales, two octaves, ascending and descending, hands together, with correct fingering.
6. Be able to harmonize selected major and minor melodies at sight—using the three primary chords.
7. Play a hymn, from the list below, in the original and two other keys; or be able to transpose a hymn (selected by the examiners) to two keys at sight:

Hymn to Joy (Joyful, Joyful, We Adore Thee)
Russian Hymn (God the Almighty One)
Eiñ Feste Burg (A Mighty Fortress Is Our God)
Nicea (Holy, Holy, Holy)
Ellers (Savior, Again to Thy Dear Name)
Lyons (O Worship the King)
Hursley (Sun of My Soul, Thou Saviour Dear)
Dix (For the Beauty of the Earth)
Crusaders' Hymn (Fairest Lord Jesus)
America (My Country, 'Tis of Thee)
Materna (America, the Beautiful)

The proficiency examination will be scheduled at the beginning, middle, and end of each semester. During each examination, the student must attempt all parts of the proficiency test.

Recital Performance Requirements. All students should perform in one student recital each semester on their principal instrument. The Performance Emphasis student will give a sophomore, junior, and senior recital (Music 220, 320, 420). The Church Music Emphasis student will give a senior recital. All students pursuing a degree in music with the exception of the Bachelor of Arts Degree in Music Business and Bachelor of Arts in Music Communications must present a junior recital.

Recital Attendance Requirement. Students pursuing music degrees at Wingate College are expected to attend recitals and concerts presented on campus. For specific attendance requirements for each program of study, see the description of the course, Recital and Concert Lab, Music 125.

Elective Music Courses. For students studying other academic fields, electives in music are offered. Chamber Singers, College Chorus, Marching Band, Symphonic Band, Jazz Ensemble, Chamber Ensemble, and Wingate Chorale give all students the opportunity to participate in performance ensembles.

Division of Humanities

Lang Professor of History and Religion and Philosophy: Surratt

Professors: Coleman (Chairperson), R. Doak, P. Thomas B. Christopher, Little

Associate Professors: Bagley, Hayes, M. Thomas

Assistant Professors: Sykes, Peterson, Walker, J. Spencer, S. Spencer

Instructor: D. Doak

Department Coordinators

English	Mrs. Rachel Walker
Religion	Dr. Edwin Bagley
Foreign Language	Mrs. Darlene Doak

The Division of Humanities includes courses in English, Foreign Language, Journalism, Philosophy and Religion.

Baccalaureate degrees are offered in English, English Education, and Religious Studies.

The baccalaureate degree in English Education enables students to become competent secondary English teachers. Students are taught to master the English language; develop an understanding and appreciation for a wide variety of literature; integrate reading, writing, speaking, research, listening, viewing, and critical thinking using various texts and modern technology.

The baccalaureate degree in English without teacher certification helps students develop effective communication skills— reading, writing, speaking, listening, viewing, and critical thinking. Students read extensively, exploring ideas, background, and values found in a variety of literature. The degree prepares students for various careers related to communication and for entrance into a variety of graduate programs.

The Religious studies program involves concentrated academic study in religion, emphasizing the Judaeo-Christian heritage and expression. Its stance is Christian, involving an openness to truth and meaning from any and all mediating sources or disciplines.

Courses in Foreign Language aim to give the basic skills with which the student can begin to communicate in a foreign language. Students also study the civilization and culture of each respective country.

Instruction in Foreign Language utilizes an electronic language laboratory to develop the student's ability in the basic skills of communication.

The Division of Social Science includes instructional offerings in geography, history, human services, physical education, political science, psychology, recreation, and sociology.

Baccalaureate degrees are offered in American Studies, History, Human Services, Psychology, Sociology, Parks and Recreation Administration, and Sports Medicine.

The American Studies major is an interdisciplinary exploration of the American experience from religious, aesthetic, historical, literary, and social dimensions. A generous number of electives is included for possible choice of a second major or concentration to provide greater flexibility for student choice. Only the Bachelor of Arts degree is granted in American Studies.

Wingate's History major stresses the introductory courses of the several social sciences, their nature and possible interrelations at a theoretical level, while several required history courses cover the major regions of the world. Students may obtain secondary certification in social studies in connection with this major. It provides maximum opportunity for inter-disciplinary study and comprehensiveness in the social sciences and history.

Wingate's Human Services major is designed for students who choose careers working with people: serving the personal and interpersonal needs of both individuals and groups. This degree program emphasizes skills and attitudes necessary to become a practitioner in human service occupations - ministry, church-related vocations, mental health, social work, and work with specific age groups (c.g., gerontology, child care, etc.). All courses are presented in an interdisciplinary manner with relevant Christian theological inquiry.

The Parks and Recreation Administration and Sport Management majors prepare students for careers in community recreation programs, camps, parks, and other occupations related to leisure time. The planning, administration, supervision, and evaluation of recreational opportunities are covered.

Majors in Psychology and Sociology cover the multi-dimensional aspects of human behavior. These majors in the behavioral sciences are designed for careers or further studies in graduate school.

The Sports Medicine major at Wingate is a NATA (National Athletic Trainers Association) internship program. Students undertake coursework in sports medicine, physical education, biology and medical assisting while having the opportunity to work in Wingate College's Training Rooms with our NCAA Division II athletic teams. The major services those interested in careers in athletic training, physical therapy or as a physician's assistant. Students desiring careers in physical therapy or as a physician's assistant will need to work with their advisor to self-design their specific academic program (via their electives) to meet the requirements necessary to pursue graduate study in these areas. Those desiring NATA certification will be eligible to apply for the national certification exam upon successful completion of this program, completion of 1500 hours of practical experience and also must have the endorsement of the supervising athletic trainer.

Courses in history, political science, psychology, and sociology offer students an opportunity to explore the historical development of human civilizations, human beings' attempt to understand and to structure social environments, and the values which undergird human relationships.

Through physical education courses, students are encouraged to develop an appreciation of physical activity and practices that maintain good health. Opportunities are provided for students to participate in a variety of activities including team sports, dual sports, individual sports, and recreational activities. The college requirement in physical education is PE 101. Students may choose other physical education courses for elective credit.

Completion of foreign language through the intermediate level is recommended for the minor in international studies.

Social Science

Eighteen (18) hours which must include one introductory course and one advanced course in three of the following areas:

History, Political Science, Psychology, Sociology,
and Sports Medicine

Biology 315 4 hrs.

P.E. required courses 16 hrs.

P.E. 245, 305, 310, 315, 405

Certification in Athletic Training is available through the National Athletic Trainers Association (NATA). Certification requirements include:

- (1) Proof of graduation from a college or university;
- (2) 1500 clock hours of training under the direction of a NATA certified trainer. These hours must have been accumulated over a minimum of two years and not more than five years; and
- (3) Prior certification in Adult CPR and First Aid.

Students seeking this certification are advised to take P.E. 250, 320, 325, and 499 in addition to the courses required for the minor.

Additional information on this minor and on the certification program are available from the Department of Recreation and Physical Education.

Division of Science and Mathematics

Professors: Hunter, Hadden, Plant

Associate Professors: Hall, Gibson, Rowe

Assistant Professors: Bell, Davis, Feiker, Kerr, Miller, Shook, Mills, Moorman

Instructors: Thompson

Department Coordinators

Biology	Dr. Lea Hadden
Chemistry and Physics	Dr. James Hall
Mathematics	Dr. David Rowe
Medical Assisting and Allied Health	Mrs. Pat Thompson
Nursing	Dr. Sue Hunter

The Division of Science and Mathematics offers instruction in Biology, Chemistry, Earth Sciences, Engineering, Mathematics, Medical Assisting, Nursing, Physics, and Physical Science. The Division offers majors leading to the baccalaureate degree in Allied Health, Biology, Chemistry, Chemistry-Business, Mathematics, Mathematics/Business, Nursing, Pre-Engineering, and Technology. An associate degree is offered in Medical Assisting.

A pre-medical advisor supervises students preparing for careers in medicine, dentistry, veterinary science, optometry, and allied health fields. This committee provides evaluation and guidance concerning the course of study, professional school contacts, and details of the application process. All students have advisors selected from faculty in the area of their academic major.

Students who major in Biology or Mathematics may earn certification to teach on the secondary level. (Those completing the Biology curriculum and requirements with secondary certification are certified to teach Biology and Chemistry). Students wishing to teach science or mathematics on the middle school level may pursue these courses as part of the Middle School Education major.

The major in Biology is designed: (1) to prepare students for graduate work in any area of biological sciences; (2) to provide the basic science foundation necessary to entering professional programs in medical and paramedical fields; (3) to prepare students for direct entry into industrial and technological job markets; and (4) to give academic preparation for students wishing to teach at secondary and intermediate school levels.

Students with a major in Chemistry may pursue a number of career opportunities ranging from traditional industry jobs to newer specialized areas such as energy, environmental analysis, and biotechnology. A major in chemistry coupled with additional work in business, computer science or mathematics, for example, will allow flexibility in employment in industry, government, or private sector careers. A chemistry major also provides a foundation for graduate or professional schools in chemistry, medicine, pharmacy, or engineering.

In addition to these objectives, science courses provide students with the option of a scientific perspective, an awareness of the importance of science to modern man, and experience with analytical and investigative process.

The BSN Completion program is an upper division nursing program designed exclusively for Registered Nurses who have earned an ADN or Diploma in Nursing and who wish to earn the baccalaureate degree in nursing. It prepares a generalist to assume leadership in a variety of settings. It also offers a knowledge and research base for advanced nursing education at the graduate level.

Medical Assisting is an associate degree program which provides intensive training in clinical skills and in administrative medical secretarial skills, as well as an introduction to the liberal arts. The program has been accredited by the Council on Medical Education of the American Medical Association in collaboration with the American Association of Medical Assistants. Admission is competitive; following acceptance to Wingate, the applicant must be admitted to the Medical Assisting program. Criteria used in selecting Medical Assisting students include class rank, above average school grades and positive performance in a personal interview.

The Mathematics major prepares students for graduate work, teaching, or direct employment. Employment in a business capacity is directly addressed with the Business/Mathematics program.

The Pre-Engineering major includes all courses in science, mathematics, computer information systems, and liberal arts that should preface any professional engineering major. Guidance is given in entering the engineering college of the student's choice after three years at Wingate.

The Allied Health major allows students with certification and associate degrees in the various areas of allied health to complete the B.S. degree with a cognate in Administration, Education, Human Services, Health Sciences, or Sports Medicine.

The Bachelor of Technology degree provides a liberal arts education and a core of professionally related courses for persons holding an associate degree in a technical field. This degree offers preparation for supervisory, administrative and/or teaching responsibilities for which the baccalaureate degree is necessary.

Requirements for majors

Allied Health

The Bachelor of Science in Allied Health degree is designed for students who have developed technical competency in one of the health occupations through completion of an accredited program of training. The Education track does not certify the Allied Health student to teach in public schools.

Admission Requirements

- 1) Submission of evidence of certification, registration, or current licensure in a health field by the Committee on Allied Health Education or other appropriate professional organization.
- 2) An associate degree from an accredited school or evidence of the equivalent of two years full-time work experience in the specialty area. (Deficiencies in general education requirements must be completed.)
- 3) Submission of a completed health form with the application for admission to the program.

Curricula

The minimum number of hours required for the Bachelor of Science degree in Allied Health is 128 semester hours.

Requirements for the B.S.A.H. degree are:

Category I: Associate Degree Transfer. Up to 64 semester hours (96 quarter hours) transfer credit for the associate degree in a health field. This includes the technical component and the general education courses taken at the associate degree-granting institution.

Category II: General Education Requirements. Wingate College requirements of General Education are listed on page 51 of this bulletin. Some of these requirements may be transferred within the 64 hour associate degree transfer.

Category III: Professional Concentration. A 30 semester hour concentration is required in one of five areas: Administration, Education, Human Services, and Health Sciences, and Sports Medicine. Suggested coursework for these concentrations follows.

Administration

Training to become managers of offices and clinics. Planning, organizing, and directing operation of all types of healthcare facilities.

Thirty (30) hours selected from Accounting 251-252; Business 312*, 313, 322; CIS 101; Speech 201; Psychology 202; Math 109; electives chosen in consultation with the Allied Health Advisor.

Education

Learning to develop and administer health maintenance and wellness programs and to conduct educational programs for groups with similar health conditions.

Thirty (30) hours selected from Education 205, 301, 330*; Math 109; Chemistry 100; Biology 315, 320; CIS 101; Speech 101, 201; electives chosen in consultation with the Allied Health Advisor. This track does not certify the student to teach in public schools.

Health Sciences

Emphasis in biological sciences prepares for opportunities in research and various aspects of the pharmaceutical industry.

Thirty (30) hours selected from Biology 101, 315, 320; Chemistry 100; Math 109 or 209; electives chosen in consultation with the Allied Health Advisor.

Human Services

Specializing in work under supervision of healthcare professional in interviewing, counseling clients, administering psychological tests, and participating in group activities. May work in social welfare departments, child care, preschool, vocational rehabilitation, schools for learning disabled, emotionally disturbed, and mentally handicapped.

Thirty (30) hours selected from Psychology 201, 202, 301, 302, 306, 315, 322, 401, 407; Human Services 321; Sociology 201; electives chosen in consultation with the Allied Health Advisor.

Sports Medicine

Preparation for work with athletes or individuals requiring special care due to injuries related to physical activity in professional athletics, communities, and Sports Medicine Clinics.

Nursing

The Wingate College BSN Completion Program is accredited by the National League for Nursing.

The program is designed for students licensed as Registered Nurses and leads to a Bachelor of Science Degree in Nursing. The completion program prepares nurses for professional practice in complex health care situations. The program may be completed in two years of full-time study or on a part-time basis.

Admission Policy and Procedures

Admission to Wingate College does not constitute admission to the nursing major. Eligibility for acceptance is determined by the Department for Nursing.

1. Apply for admission to Wingate College and the Nursing Department.
2. Request that transcripts be sent from all schools that you have attended.
3. Submit a copy of your North Carolina nursing license along with your application. Recent graduates may be conditionally admitted to the program until results of the National Council of Licensing Examination are received. At this time, admission status will be changed to full standing, or dismissal from the nursing program will occur.
4. Submit two satisfactory references from current employer and academic program.
5. Submit evidence of professional liability insurance in the minimum amount of \$300,000/\$500,000.
6. Submit a physical examination form and an up-to-date immunization record.
7. Schedule an interview with the Director of the Nursing Department.

Validation of Credit

Registered nurses from diploma or associate degree programs may receive credit for up to 64 semester hours from two year institutions. Credit is granted in transfer from other accredited colleges and universities insofar as the courses meet the curriculum requirements of this program and are equivalent to courses offered through Wingate College. Credit for such courses and applicability to the degree will be determined by the Registrar's office. Advanced placement credit may be earned through:

1. Satisfactorily completing the NLN Nursing Mobility Profile II Tests with a minimum decision score of 90. Upon successful completion of the four written NLN advanced placement exams, 30 semester hours of nursing credit are awarded.
2. Satisfactorily completing the College Level Examination Program (CLEP) in any of the following subject areas: English Composition, World Civilization, and Chemistry. A limit of 15 credit hours may be granted through CLEP.

Progression and Graduation

1. A total of 127 semester hours is required for the Bachelor of Science in Nursing degree.
2. The last 30 hours of academic credit must be completed at Wingate College.
3. Students must maintain an overall 'C' (2.00) grade point average (GPA) in order to continue in the nursing program, and a minimum grade of 'C' is required for successful completion of each nursing course. Students must complete both theory and clinical components of each course with a grade of 'C' in order to complete the course. If a student receives less than a 'C', that course may be repeated only once. A student repeating a nursing course may not be enrolled in another nursing course during that semester.

*These courses are considered to be foundation courses and any deficits must be completed prior to entry into the Upper Division Nursing courses.

Typical course sequence. Students will set up specific semester schedule in consultation with advisors.

Academic advising is done on an individual basis by the Nursing Department.

Beginning fall semester, 1994, Wingate College will offer a one-year pre-nursing curriculum consisting of the prerequisite courses required by most two-year nursing programs in addition to several courses required for the Wingate College BSN Completion Program. Upon completion of this one-year curriculum, the student may enroll in a two-year program at another institution. Additional BSN course requirements may be completed at a community college during the two-year nursing program. After taking the licensure examination, the student may apply to the Wingate College BSN Completion Program. The BSN nursing courses may be completed on a part-time basis in two years while the student works full-time as a registered nurse. The proposed length of the entire program is five years, and at least two of the years will be part-time.

Pre-engineering

The Pre-engineering program involves three years at Wingate and a fourth year (32 additional hours) at an accredited engineering school, at which time the student receives a B.S. degree from Wingate. The student would generally earn a baccalaureate degree in engineering from the engineering school after one additional (fifth) year.

Bachelor of Technology Degree

Each student's program is planned and monitored by an academic committee composed of the student, an academic area faculty advisor, and the registrar. The proposed course of study must be approved by the Provost or his designee.

The minimum requirement for the Bachelor of Technology degree is 128 semester hours.

Requirements for the degree are:

- 1) Category I: Associate Degree Program. Technical courses and other credits from the associate degree granting institution. Courses transferred may not exceed 64 semester hours (96 quarter hours).
- 2) Category II: General Education Requirements. Wingate College requirements of General Education are listed on page 51 of this bulletin. Some of these requirements may be transferred with the associate degree credits.
- 3) Category III: Cognate Courses. Selected by the student and advisory committee to satisfy the professional educational objectives of the student. Requirements in the cognate area are 18-28 semester hours as specified by the student's committee. At least 18 hours of cognate courses must be in one selected academic area.

Students holding the associate degree in the following areas may take courses from across the entire Wingate curriculum:

- Agriculture/Natural Resources
- Electrical/Electronics
- Mechanical/Manufacturing
- Art and Design
- Services
- Transportation
- Construction

Specific cognate areas are prescribed for students holding degrees in certain fields.

Business Administration

Persons holding an associate degree in these programs may choose courses in the area of Business Administration.

MASTER OF ARTS IN EDUCATION

Director: Sarah Harrison-Burns, Ph.D.

Wingate College offers a thirty semester hour graduate program leading to the Master of Arts degree in Education and graduate-level certification in the areas of Elementary Education (K-6), and Middle Grades Education (6-9). The graduate program focuses on the professional development and immediate responsibilities of teachers and is designed to relate to the spiral curricular content of the public school. The graduate program was established in response to the expressed interest and needs of superintendents and teachers in seven school systems surrounding Wingate College and is seen as an outgrowth of a strong undergraduate teacher education program.

All degree-seeking candidates take the following core of graduate courses:

Education 501. Advanced Foundations	3 hours
Education 502. Issues in American Education	3 hours
Education 503. Educational Research	3 hours
Education 515. Independent Project	6 hours
or	
Education 525. Thesis	6 hours
or	
6 semester hours of restricted electives (as offered)	

Total 15 hours

Candidates in Elementary Education take the following four courses designed to complement the spiral curricular content of the public school.

Education 504. Language Arts in the Curriculum (K-6).

Education 505. Mathematics in the Curriculum (K-6).

Education 506. Social Studies in the Curriculum (K-6).

Education 507. Natural Science in the Curriculum (K-6).

Candidates in Elementary Education take Education 516 and those in Middle Grades Education take Education 514.

Education 516. Elementary Education (K-6).

Education 514. Middle Grades Education (6-9).

Students seeking a Master of Arts Degree in Education at the Middle Grades level choose one of three academic areas and take their content-focused courses in that area. The three areas of academic preparation at the Middle Grades level are Language Arts, Mathematics, and Social Studies.

Language Arts:

English 516 - Viewing and Listening Skills for the Middle Grades Teacher (6-9).

Education 510 - Language Arts in the Middle Grades Curr. (6-9).

English 517- Linguistics for the Middle Grades Teacher (6-9).

English 515- Advanced Composition and Writing for the Middle Grades Teacher (6-9).

Mathematics:

Math. Ed. 517- Number Theory for the Middle Grades Teacher (6-9).

Math Ed. 515- History of Mathematics for the Middle Grades Teacher (6-9).

Education 513- Mathematics in the Middle Grades Curr. (6-9).

Math Ed. 516- Geometry for the Middle Grades Teacher (6-9).

Social Studies:

Political Science 516- Comparative Economic and Political Systems.

History 516- Contemporary United States History.

Ed. 511- Social Studies in the Middle Grades Curr. (6-9).

History 515- Interpreting N. C. History.

Admission Requirements

1. Bachelor's degree from an accredited college or university.
2. Undergraduate major in education or Class A certification to teach in the public schools. Certification must be appropriate for the proposed area of graduate study.

3. A 3.0 (B) cumulative grade point average during the last two years of undergraduate college or a 3.0 grade point average in the education major.
4. An official test score for the Miller Analogies Test (MAT) or the Graduate Record Examination (GRE).
5. Two recommendations from administrative or supervisory personnel (forms provided with application packet).
6. Receipt of **official** transcripts from all schools attended.
7. Acceptance by the Director of Graduate Studies or, in cases involving provisional status and/or student appeal, acceptance by a subcommittee of the Graduate Council.
8. Additional information leading to acceptance may be required (example, a personal interview).

Admission on conditional status will be considered and decided upon by a subcommittee of the Graduate Council. The manner in which conditional status can be satisfied is specified in writing in the Graduate Bulletin.

Graduation Requirements

1. Overall grade point average of 3.00 (B) with no grade lower than a 'C' at time of graduation.
2. Successful completion of a written comprehensive examination after the successful completion of 24 semester hours.
3. Completion of Education 515: Independent Project, or Education 525: Thesis, both of which require a favorable discussion of the project with a graduate faculty committee or completion of six (6) semester hours of restricted electives.
4. Completion of the degree within five years from the initial date of admission to the program as a degree-seeking student.

Transfer Credit

A student may be permitted to transfer from another accredited graduate school up to six semester hours of appropriate graduate credit provided the credit was gained during the four-year period preceding the student's admission to Wingate's graduate program.

Students seeking transfer credit must initiate this action with the Director of Graduate Studies before planning and proceeding with their course of study. Transcripts will not automatically be reviewed for transfer credit.

It is expected that most graduate students will complete the program over a twenty-four month span of time: two summers with 9 hours each summer (18 hours), two semesters with 3 hours per semester (6 hours), and the Independent Project or Thesis (6 hours or 6 semester hours of restricted electives) completed

during a school year. Students are not required to follow this particular program completion plan, but must complete the degree within five years from the initial date of admission to the program as a degree-seeking student.

GRADUATE COURSES IN EDUCATION

Education 501. Advanced Foundations. Psychological and philosophical foundations of education. Credit: three hours.

Education 502. Issues in American Education. Major issues and controversies in the contemporary educational scene. Issues that present policy decisions considered. Credit: three hours.

Education 503. Educational Research. Research methodology, reading, and interpreting professional literature. Interpreting and applying educational research. Credit: three hours.

Education 504. Language Arts in the Curriculum (K-6). Consideration of expected teaching content in language arts. Credit: three hours.

Education 505. Mathematics in the Curriculum (K-6). Consideration of expected teaching content in mathematics. Credit: three hours.

Education 506. Social Studies in the Curriculum (K-6). Consideration of expected teaching content in social studies. Credit: three hours.

Education 507. Natural Science in the Curriculum (K-6). Consideration of expected teaching content in natural science. Credit: three hours.

Education 510. Language Arts in Middle Grades Curriculum (6-9). Consideration of expected teaching content in language arts. Credit: three hours.

Education 511. Social Studies in Middle Grades Curriculum (6-9). Consideration of expected teaching content in social studies. Credit: three hours.

Education 513. Mathematics in Middle Grades Curriculum (6-9). Consideration of expected teaching content in mathematics. Credit: three hours.

Education 514. Middle Grades Education (6-9). Exploration of nature of early adolescence and various organizational and instructional approaches appropriate to this level. Credit: three hours.

Education 515A-515B. Independent Project. A project to be focused on the substance of the respective student's responsibilities in the school or in the respective educational setting. Prerequisite: Successful completion of required 24 hours of coursework or permission of the Director of Graduate Education Studies. Credit: six hours.

Education 516. Elementary Education (K-6). Exploration of nature of childhood and various organizational, curricular, and instructional approaches appropriate to this level. Credit: three hours.

Education 518. Strategies of Teaching. This course is designed to examine a variety of strategies of instruction for the elementary and middle school, including numerous peer teaching experiences. Credit: three hours.

Education 520. Developmental Dyslexia. A study in the identification and remediation of specific language disabilities/dyslexia. Will introduce a definition of Developmental Dyslexia with its relationship in the field of special education to other handicapping situations. Credit: three hours.

Education 525. Thesis. A paper to be centered around some aspect of education. Prerequisite: Successful completion of required 24 hours of coursework or permission of the Director of Graduate Education Studies. Credit: six hours.

Education 599. Independent Project/Thesis Continuation. (\$100)

English 515. Advanced Composition and Writing for the Middle Grades Teacher (6-9). Advanced instruction in various types of composition. Reviews public school writing programs. Credit: three hours.

English 516. Viewing and Listening Skills for the Middle Grades Teacher (6-9). Purposeful listening (literal, interpretive, critical, and creative) and visual communication. Course substance correlated to the competencies expected in the Middle Grades curriculum. Credit: three hours.

English 517. Linguistics for the Middle Grades Teacher (6-9). English phonology, morphology, and syntax. Focus on needs of Middle Grades language arts teachers. Credit: three hours.

History 515. Interpreting North Carolina History. North Carolina history with emphasis on methods of teaching for Middle Grades social studies teachers. Credit: three hours.

History 516. Contemporary United States History. A history of the United States since 1945: consideration of teaching possibilities useful to Middle Grades social studies teachers. Credit: three hours (Fall Semester).

Math Education 515. History of Mathematics for the Middle Grades Teacher (6-9). Mathematical contributions of Greeks and Arabs; development in history of mathematics (e.g. Euclid, Archimedes, Newton, Euler); historical interplay between mathematics and physical sciences. Credit: three hours.

Math Education 516. Geometry for the Middle Grades Teacher (6-9). Theory and application of Euclidean plane geometry; use of fundamentals of Euclidean solid geometry; application of analytic methods to geometric problems; historical and mathematical significance of Parallel Postulate; introduction to Non-Euclidean geometry. Credit: three hours.

Math Education 517. Number Theory for the Middle Grades Teacher (6-9). Components of elementary number theory, including modular arithmetic, Fundamental Theorem of Arithmetic, and basic theorems pertaining to primes, composites, multiples, and divisors. Application of binomial theorem. Fundamental Theorem of Algebra. Credit: three hours.

Political Science 516. Comparative Economic and Political Systems. Consideration of major types of economics and their expression through differing political systems. Emphasizes curricular needs of Middle Grades social studies teachers. Credit: three hours.

MASTERS OF BUSINESS ADMINISTRATION

Director: Charles F. Palmer

The Wingate Masters of Business Administration (MBA) program is designed to meet the needs of business professionals in the dynamic Charlotte area and Southern Piedmont region. The program is structured to blend with professional work experience to help committed professionals achieve their best.

The Wingate MBA program is tailored for working professionals preferably with a minimum of one year of professional work experience. Since all students in the program have had real professional experience, the program is able to accentuate business theory and skills with a practical application emphasis.

The Wingate MBA program offers a carefully chosen group of courses to give students a wide exposure to the key areas of business administration. While the curriculum maintains rigorous academic standards, the teaching and learning occur in an environment of support for professionals who are seeking assistance for problems they face in the everyday work setting.

Admission

Application forms for admission to the program may be obtained by contacting the Director of the MBA Program, Division of Business and Economics, Wingate College, Wingate, NC 28174 (704) 233-8148 or 233-8123.

All applications will be evaluated on an individual basis to determine an individual student's readiness to enter the program. All applicants must hold a baccalaureate degree from a regionally accredited institution of higher education. Applicants should preferably have one or more years of significant full time business or administrative experience.

Application for admission requires the following:

1. An official transcript from each college or university attended.
2. A satisfactory score on the Graduate Management Admission Test (GMAT) taken within the last five years.
3. A satisfactory undergraduate grade point average.
4. Two letters of recommendation. Twenty-five dollar non-refundable registration fee.
5. Students whose native language is not English may be required to submit scores on the Test of English as a foreign language (TOEFL).

Prerequisites

Students who have completed an undergraduate program of study in business will generally not be required to take any prerequisite courses. However, since many applicants for the program come from engineering, education, liberal arts or other undergraduate backgrounds, each student will be advised about prerequisite courses.

Applicants can satisfy these prerequisites by showing that they have completed appropriate coursework with at least a "C" or by taking special courses offered by Wingate College.

To assist applicants, Wingate offers six prerequisite courses:

General Principles of Accounting I	3 credit hrs.
General Principles of Accounting II	3 credit hrs.
General Principles of Economics I	3 credit hrs.
General Principles of Economics II	3 credit hrs.
Business Statistics	3 credit hrs.
Intro to Computer Info Systems	3 credit hrs.

Wingate also offers combined Accounting I and II and combined Economics I and II. Most applicants will have questions concerning their own course background as it is related to the prerequisites. Therefore, applicants are encouraged to discuss these issues personally with the Director of the MBA program.

GRADUATE COURSES IN BUSINESS

BUS 501M. Business Communications. Analysis of the concepts and issues in managerial and business communications. Extensive coverage of the techniques of report preparation and presentations (both written and oral), business letters, and memoranda. Emphasis on organization, clarity, brevity, style, and uses of visual aids in writing and speaking. Credit: three hours.

BUS 503M. Business Ethics. A study of the ethical responsibilities businesses have to others, such as customers, competitors, employers and employees. Includes consideration of the influence of religious and cultural values and the efforts to codify ethics for various industries and professions. Credit: three hours.

BUS 511M. Managerial Economics. An application of microeconomic theory to management decisions. The topics of the course include demand theory (including revenue and elasticity concepts); production and distribution theory; cost theory; economic profit analysis; market structure analysis; pricing; and other selected applications of microeconomic principles. Credit: three hours.

BUS 512M. Organizational Management. An analysis of the behavioral dimensions of business organizations. Cases and experiential situations address the topics of motivation, communication, performance, stress, culture, group dynamics, organizations structure, and change. Credit: three hours.

BUS 513M. Managerial Accounting. The use of accounting information in management decision-making. Specific topics include cost/volume/profit analysis, product costing systems, use of accounting data in pricing decisions, capital expenditure decisions, and production decisions; and planning and control systems, including budgeting and measures of divisional performance. Credit: three hours.

BUS 514M. Quantitative Decision Methods. An intensive survey and application of mathematical techniques used in solving business problems. A study of probability introduces the course; following topics include decision theory, inventory control models, linear programming, queuing theory, network models for project management, and Markov analysis. Computer applications will be used in most topics. Credit: three hours.

BUS 515M. Accounting 251/252. Principles of Accounting I & II for MBA students. Prerequisite course for acceptance in program.

BUS 521M. Operations Management. The application of mathematical models and statistical analyses to business problems. Major topics include forecasting, facilities layout, production scheduling, material requirements planning, inventory management, quality control, and just-in-time operations. Credit: three hours.

BUS 522M. Marketing Management. Problems of specialized marketing strategies for consumer and industrial markets. Marketing research as determinant of policy. Cases emphasizing analysis and decision-making. Credit: three hours.

BUS 523M. Financial Management. The risk-return relationships is studied through the application of financial analysis. Computer models of working capital management, funds flow analysis, and capital budgeting and structure will be applied to case and problem situations. Credit: three hours.

BUS 531M. Business Strategy. Study of management's role in policy formulation and implementation through research and cases. Opportunities are also available to make policy decisions by viewing business from an entrepreneurial perspective. Capstone course, which integrates many courses in MBA program. Credit: three hours.

Additional study of accounting as a tool for managerial decision making. Credit: three hours. (Recommended Spring Semester)

Accounting 303. Intermediate Accounting I. Study of financial accounting theory and practice. Conceptual framework, balance sheet and income statement, present value concepts. Prerequisite: Accounting 252. Credit: three hours. (Fall Semester)

Accounting 304. Intermediate Accounting II. Continuation of Accounting 303. Corporate financial accounting for fixed assets, current and long-term liabilities, bonds, investments, paid-in-capital, and retained earnings. Prerequisite: Accounting 303. Credit: three hours. (Spring Semester)

Accounting 305. Special Topics in Accounting. Partnerships, foreign currency transactions, governmental and not-for-profit accounting, interim reporting, segment reporting, bankruptcy, estates, and trusts. Prerequisite: Accounting 303 or consent. Credit: three hours. (Spring Semester)

Accounting 325. Cost Accounting. Cost systems, product costing, responsibility accounting, materials, labor, and overhead cost control. Also includes job order, process, and standard costs. Prerequisite: Accounting 252. Credit: three hours. (Fall Semester)

Accounting 326. Managerial Accounting. Use of accounting for business decision making. Attention given to principles and techniques, reports, analyses and interpretation of accounting data. Prerequisite: Accounting 252 or consent. Credit: three hours. (Fall Semester)

Accounting 330. (CIS 330). Management Information Systems. Theory and practice of management information systems focusing primarily on design and utilization of computer-based information systems. Systems analysis and design from management perspective. Prerequisite: CIS 205 or BUS 312. Credit: three hours. (Fall Semester)

Accounting 403. Accounting for Business Combinations. Study of the accounting for business combinations, including mergers, consolidations, purchase vs. pooling of interests, consolidated financial statements, home and branch office accounting. Prerequisite: Accounting 303-304. Credit three hours. (Fall Semester)

Accounting 419. Intermediate Accounting III. Continuation of Accounting 304. Accounting for leases, pensions, cash flows, income taxes, earnings per share, and inflation. Prerequisite: Accounting 304. Credit: three hours. (Fall Semester)

Accounting 420. Advanced Accounting Problems. Intensive study of various accounting problems in theory and practice expected to appear on the Uniform Certified Public Accountant Examination. Prerequisite: Consent. Credit: three hours. (Spring Semester)

Accounting 427 Federal Income Tax I. Federal Income Tax Law as it relates to individuals and sole proprietors. Attention is focused on tax research methods and the preparation of formal Tax Memoranda. Prerequisite: Accounting 252. Credit: Three hours. Writing intensive course (Fall Semester)

Accounting 428. Federal Income Tax II. Federal Income Tax Law as it relates to partnerships, corporations, estates and trusts. Attention is given to tax research for tax planning situations, and preparation of formal Tax Memoranda. Prerequisite: Accounting 427. Credit: Three hours. Writing intensive course. (Spring Semester)

Accounting 431 Auditing. Auditing theory and practice. Auditing procedures and standards established by the American Institute of Certified Public Accountants and the Certified Internal Auditors; duties of both junior and senior auditors. Prerequisite: Consent of Instructor. Credit: three hours. (Spring Semester)

Accounting 498. Independent Study. Program of study selected by student. Approved and supervised by accounting faculty member. Credit: three hours.

Accounting 499. Internship. Field experience under a Certified Public Accountant. Program must be approved and supervised by accounting faculty. Grading is Pass/Fail. Credit: three or six hours.

ALLIED HEALTH

Allied Health 499. Externship in Sports Medicine. Student will complete an externship consisting of at least 240 contact hours in either a clinical setting or high school setting. This will be done under the direct supervision of a sports medicine physician or a certified athletic trainer. Prerequisite: Sr. standing. Credit: six hours.

ART

Art 101. Basic Composition and Design. Basic elements of art and organization of elements through simple compositional problems; emphasis on color, form, value, and texture. Portfolio of two-dimensional projects using variety of media. Credit: three hours.

Art 102. Basics of Oil and Acrylic Painting Media. Exploration of materials, techniques, and problems of painting using either oil or acrylic media; assignments range from representational to non-objective. Studio. Credit: three hours.

Art 103. Art Appreciation. Lecture introduction to the visual elements, principles of design, traditional fine arts and craft media, and design disciplines. Includes elements of design and historical survey of visual arts. Credit: three hours.

Art 104. History of Art I. History of western art from cave times through proto-Renaissance. Emphasis on development of styles in painting, sculpture, and architecture. Supplementary field trips and museum study. Credit: three hours. World Awareness course. Writing intensive course.

Art 105. Drawing. Pencil drawing techniques with emphasis on shading. Elements of scale, size relationships, proportions, and the juxtaposition of value explored through use of curvilinear and rectilinear form. Credit: three hours.

Art 106. Beginning Watercolor. Uses and techniques of watercolor painting. Exercises using washes, overlays of color, special effects. Painting from location (landscapes and nature subjects) insofar as possible. Credit: three hours.

Art 201. Three Dimensional Design I. Exposure to basic art materials and sculptural processes including paper, clay, wood, found objects, and other materials. Credit: three hours.

Art 203. Ceramics. Basic processes in ceramics, dealing with forming, glazing, and firing clay objects with instruction in handbuilding and wheel throwing techniques. Studio. Credit: three hours.

Art 204. History of Art II. Painting, sculpture, and architecture from the Renaissance through the twentieth century. Emphasis on relationship of artistic innovation to the changing political, social, and economic concerns. Credit: three hours. World Awareness course. Writing intensive course.

Art 205. Figure and Portrait Drawing. Drawing from a figure model, focusing on both anatomy and facial structures. Work in wet and dry media in a variety of techniques such as gestural and contour drawing. Prerequisite: Art 105. Credit: three hours.

Art 215. Basic Sculpture. Introduction to sculptural processes, emphasizing integration of ideas, materials, and techniques. Projects include additive and subtractive methods as well as casting and fabrication, using media of wood, clay, plaster, and stone. Credit: three hours.

Art 225. Introduction to Photography. Basic photographic theory, equipment, and techniques. Emphasis on use of 35 millimeter camera as a creative and expressive tool. Studio work includes darkroom experience in developing and printing black-and-white film. Student must have 35mm manually adjustable camera. Credit: three hours.

Art 250. Single Camera, Film and Video. (MEAR 250) An introduction to videomaking, using field production methods and post-production editing. Creation of short videos with emphasis on communication. Credit: three hours.

Art 301. Three Dimensional Design II. Advanced sculptural work involving three to four major projects in clay, wood, plaster, or mixed media. Prerequisite: Art 201. Credit: three hours.

Art 302. Advanced Painting. Continuation of Art 102. Involves student in individual and creative approach to medium use and composition. Development of an idea or theme required. Prerequisite: Art 102. Credit: three hours.

Art 303. Advanced Ceramics. Exploration of form in clay, including advanced work in lidded jars, forms with handles, and large scale pottery or dinnerware. Prerequisite: Art 203. Credit: three hours.

Art 304. Women in the History of Art and Music. (Music 304). Exploration of contributions made by women in art and music from antiquity to the twentieth century. Prerequisite: ART 103 or MUS 104 or equivalent. Credit: three hours. (Fall Semester, odd years)

Art 305. Advanced Drawing. Extension of techniques and media introduced in Art 105. Individual expression, large scale and experiments with subject matter emphasized. Prerequisite: Art 105. Credit: three hours.

Art 306. Advanced Watercolor. Embraces individual problems using watercolor medium in expressive and experimental ways. Greater variety of subjects and techniques. Prerequisite: Art 106. Credit: three hours.

Art 310. Printmaking. Major relief and intaglio processes. Work includes collagraph, monoprinting, linoleum printing, etching and engraving. Prerequisite: Art 105. Credit: three hours.

Art 312. Crafts For Secondary Education. Acquaints students with basic craft tools, materials and techniques. Five basic craft areas are covered, including (1) Textile design with on-loom weaving and basketry, (2) Metalsmithing for jewelry construction and metal enameling, (3) Inlaid processes including wood and mosaic, and stained glass, (4) Fabric design with marbling, batik, and dyeing techniques, (5) paper making and papercasting for mixed media techniques. Prerequisite: Art 101. Credit: three hours.

Art 315. Advanced Sculpture. Advanced studio work consisting of projects focusing on one major sculpture area. Research paper required. Prerequisite: Art 215. Credit: three hours.

Art 320. Metalsmithing. Tools, materials, and processes of metalsmithing. Non-ferrous metals such as copper, bronze, brass, and aluminum used for finished projects. Studio. Credit: three hours. (on demand)

Art 325. Advanced Photography. Advanced photographic work emphasizing creative vision and darkroom techniques. Prerequisite: Art 225 and permission of instructor. Credit: three hours.

Art 375. (ED 375). Art Methods for Elementary Education (K-6). Comprehensive program of arts/crafts. Variety of drawing and painting techniques and craft processes including printmaking, papier mache, fabric projects, and collage. Portfolio of projects required upon completion of the course. Prerequisites: ED 301 and 330. Credit: three hours.

Art 376. (ED 376). Teaching Methods for Art Majors. Theories and practices influential in contemporary art education for grades K-12. Curriculum planning, practical experiences, and laboratory projects identify problems and explore concepts in elementary and secondary school art. Prerequisites: ED 301 and 330. Credit: three hours.

Art 406. Aesthetic Experience in America (HIST 406). Diversity of styles and attitudes after World War II presented through the lives, works, and philosophies of individual artists. Credit: three hours.

Art 410. Advanced Printmaking. Studio work concentrating on one type of printmaking. Research paper required. Prerequisite: Art 310. Credit: three hours.

Art 450. Senior Project. Work with selected theme or subject to be developed through various media, including 2-dimensional and 3-dimensional approaches. Culminates in comprehensive exhibition. For art and art education majors only. Capstone course. Credit: four hours.

Art 470. Independent Study. Specialized work selected by student. Approved and supervised by art faculty member. Must follow guidelines for independent study on p. 66. Credit: three hours.

Art 475. Student Teaching in Art. (ED 475). Supervised internship in teaching art. Involves observation, participation, and structuring on educational environment for art. Student teaching fee assessed. Prerequisites: Education 205, 301, 322, 330, 376. Credit: fifteen hours.

BIOLOGY

Biology 101. Principles of Biology. Basic concepts of biological science emphasizing cell structure, function, and chemistry; genetics; basic immunology. Prerequisite to all courses 200 and above. Three hours lecture, three hours lab. Credit: four hours. (Fall and Spring)

Biology 115. Environmental Biology. Basic concepts of ecosystem structure and function, and varieties of interactions in the environment. Problems of energy and energy flow, resources, disruptive influences, and man's response and responsibility. Three hours lecture, three hours lab. Credit: four hours. (Fall and Spring)

Biology 120. Human Biology. Biology of man's life cycle; growth and development; physiological control; reproduction and genetics. Three hours lecture, three hours lab. Credit: four hours. (Fall and Spring)

Biology 190. Introduction to Microbiology. Basic concepts of structure classification, growth patterns, and control of microorganisms; fundamentals of infection, disease, host immune responses, and clinical application of principles. Laboratory emphasizes microbiological techniques. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester)

Biology 200. Zoology. Survey of the biology of the major groups of animals. Phylogenetic relationship is basis for examination of major patterns of structure, physiology, behavior, and natural history. Some field work, including at least one weekend field trip. Three hours lecture, three hours lab. Prerequisite: Biology 101. Credit: four hours. (Spring)

Biology 205. Plant Biology. Phylogenetic survey of plant kingdom morphology, physiology, systematics, and natural history. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester) Prerequisite: Biology 101. Writing intensive course.

Biology 220. Human Anatomy and Physiology. An introduction to the structure and function of human organ systems. Laboratory involves dissection and physiological measurement. Three hours lecture, three hours lab. Credit: four hours. Prerequisite: Biology 101. (Taught at Louise Harkey School of Nursing.)

Biology 305. Genetics. Structure and function of the gene; Mendelian and molecular genetics; patterns of inheritance; population genetics. Prerequisite: consent. Three hours lecture, three hours lab. Credit: four hours. (Spring Semester)

NOTE: Biology 101 is prerequisite to all biology courses 200 and above.

Biology 310. Developmental Anatomy. Integrated approach to the anatomy and embryology of the organ systems of vertebrate animals. Three hours lecture, three hours lab. Credit: four hours. (Fall, even years, by demand)

Biology 315. Human Anatomy and Physiology. Anatomy and physiology of human organ systems. Laboratory includes organ and whole animal dissections, and measurements of physiological processes. Three hours lecture, three hours lab. Prerequisite: Bio 101. Credit: four hours. (Spring)

Biology 320. Microbiology. Biology of microorganisms with emphasis on bacterial structure, function, and importance; basic virology and immunology. Laboratory emphasizes microbiological techniques. Prerequisite: Junior classification (assumes completion of zoology, plant biology, general and organic chemistry). Three hours lecture, three hours labs Credit: four hours. (Spring, even years)

Biology 330. Transmission Electron Microscopy. Theory and operation of transmission electron microscope involving tissue preparation and thin sectioning technique. Prerequisite: Biology 101 and consent. Credit: four hours. (Fall, by demand)

Biology 401. Ecology. Patterns of distribution and abundance of organisms, stressing quantitative evaluation of population dynamics, community structure, and ecosystem relations. Energetics and reproductive success are unifying principles. Prerequisite: Consent. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester)

Biology 405. Biology Seminar. Selected topics in biology involving student presentations and discussions. Two hours lecture. Credit: two hours. Capstone course in the major. (Spring Semester)

Biology 415. Histology. Microscopic anatomy of cells, tissues, and organs, including an introduction to histotechnique and slide preparation. Three hours lecture, three hours lab. Prerequisite: Biology 315. Credit: four hours. (Spring, odd years)

Biology 425. Biochemistry. (CHEM 425) Functional organization of cells; basic biochemical pathways (analyzed in terms of thermodynamics, enzyme kinetics, and cellular localization); membrane phenomena. Prerequisites: Chemistry 201-202. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester)

Biology 430. Comparative Organ Physiology. Physiological mechanisms of animals with emphasis on organ level of organization. Topics include circulation and gas exchange, excretion and osmoregulation, neural function, energetics, and thermoregulation. Laboratory follows experimental approach using live animal preparations. Prerequisites: Biology 101; Biology 201, 202 or 310 or permission of instructor. Three hours lecture, three hours lab. Credit: four hours. (Fall, odd years by demand)

NOTE: Biology 101 is prerequisite to all biology courses 200 and above.

Biology 442-444. Independent Study. Individual study of a topic of interest and concern to the student. May involve directed reading and/or experimental work in consultation with and supervision by a biology faculty member. May be repeated for credit (with approval of biology faculty). Prerequisite: consent. Credit: two-four hours. (Fall, Spring, by demand)

BUSINESS

Business 101. Introduction to Business. Role of business in society; careers in business; and introductory material concerning each of the functional areas of business studies. Credit: three hours.

Business 102. Keyboarding. For Business majors only. Mastery of Keyboard touch control; correct typewriting techniques at 25 words per minute. Grade is Pass/Fail. Credit: one hour.

Business 303. Business Law I. General legal principles and processes followed in business. Credit: three hours. (Recommended Fall Semester)

Business 304. Business Law II. Legal environment of business, with emphasis on an analytical and managerial view of the law as it relates to business operations and organization. Prerequisite: Business 303. Credit: three hours. (Recommended Spring Semester)

Business 306. Organizational Communication. Practice in frequently prepared written communications—memoranda, letters, instructions, procedures, proposals, and guidelines. Integration with oral dimensions; interpersonal and technological considerations. Credit: three hours. (Spring Semester)

Business 308. Business Statistics. Use of statistics for decision making; statistical description; frequency distributions; significance testing, sampling and other statistical techniques as applied to business problems. Prerequisite: Math 108. Credit: three hours.

Business 310. Office Operations and Standards. Survey of administrative processes; analysis of major functional components in offices. Emphasis on contemporary practices and trends in support system roles. Credit: three hours. (Fall Semester)

Business 312. Principles of Management. Principles underlying the organization, management, and operation of business activities. Emphasis on the creation and maintenance of the administrative organization, the definition of goals, and the diagnosis and solution of problems which may result from changing conditions. Credit: three hours. Writing intensive course.

NOTE: Biology 101 is prerequisite to all biology courses 200 and above.

Business 313. Human Resource Management. Procurement, development, utilization, and maintenance of an effective work force. Prerequisite: Business 312. Credit: three hours. (Fall Semester).

Business 321. Principles of Marketing. Marketing organization and methods with emphasis upon functions and channels as they relate to the manufacturer, wholesaler, and consumer. Credit: three hours.

Business 322. Advertising. Roles of advertising and salesmanship in a Western economy. Emphasis on product and market research, media selection, and evaluation of effectiveness. Credit: three hours.

Business 323. Production and Operations Management. Plant location, layout, and efficient operation. Includes practical applications of quantitative techniques such as linear programming, waiting-line problems, inventory control, and network analysis. Prerequisite: Business 312. Credit: three hours.

Business 324. Business Research and Report Writing. Research and uses of business information in relationship to information, statistics, and practical applications. Prerequisite: Business 308. Credit: three hours. Writing intensive course.

Business 331. Music Business Seminar I. (MUS 331) Career information, survey of music businesses, synthesis of music and business courses. Readings in professional journals. Designed for the junior music business student. One class hour per week. Credit: one hour. (Fall Semester)

Business 332. Music Business Seminar II. (MUS 332) Continuation of Music Business Seminar I. Reading and discussion of music business topics. Research on contemporary issues. Designed for the junior music business student. One class hour per week. Credit: one hour. (Spring Semester)

Business 401. Business-to-Business Marketing. The study and application of marketing principles to industrial and organizational markets. Topics include business market segmentation, organizational buyer behavior, vendor analysis, buyer-seller relations, negotiation and ethics. Credit: three hours. (Spring Semester)

Business 412. Business Finance. Acquisition and utilization of funds by business firms, with emphasis on analysis for decisions. Prerequisite: Accounting 326 or 325. Credit: three hours. (Spring Semester)

Business 414. Investment Management. Individual securities and potential portfolio of investment. Emphasis on risk-return tradeoff of securities and the capital asset pricing model. Prerequisite: Business 412. Credit: three hours. (Fall Semester)

Business 416. Organization Theory and Behavior (SOC 416). Impact of different types of markets, technologies, and other factors on the design of organizational structures and the behavior of organization members. Leadership in the goal-directed organization including conflict management, motivation, communications, and decision-making. Capstone course for the major. Prerequisite: Business 312. Credit: three hours. (Recommended Fall Semester)

Business 417. Business Strategy. Capstone course for knowledge of the various functional areas of business from a top management viewpoint of company operations. Focus on top management's role in strategy formulation and long-range planning in a dynamic environment. Prerequisites: Business 312, Business 321, Accounting 252, Economics 212, and senior classification. Credit: three hours. Capstone course for Accounting, Economics, General Business, and Management majors.

Business 451. Music Merchandising. (MUS 451) Synthesis of individual music and business courses. Copyright laws, publishing of music; performing rights; manufacturing, distribution, and sales of instruments; and other pertinent topics. Three class hours per week. Prerequisite: consent. Credit: three hours. (Every other Fall Semester)

Business 460. Music-Business Internship (MUS 460). Directed field experience in areas of business related to music. Intended for the senior music business student. Must follow guidelines for Practicum, Field Experience, and Internship on p. 67. Capstone course for the major. Prerequisite: Consent of the instructor. Credit: three hours.

CHEMISTRY

Chemistry 100. Fundamentals of Chemistry. Major concepts of general chemistry. Atomic and molecular structure, bonding, types of reactions, acid-base chemistry, solution chemistry, equilibrium, oxidation-reduction and an introduction to organic chemistry. Three hours lecture and three hours lab per week. Credit: four hours.

Chemistry 101. Principles of Chemistry I. The first half of an integrated two-semester sequence. Coverage includes the nature of matter, chemical equations and stoichiometry, gases, and chemical equilibrium. Three hours lecture and three hours lab per week. Credit: four hours. (Fall Semester)

Chemistry 102. Principles of Chemistry II. Second of a two-part integrated sequence. Thermochemistry and equilibria, electrochemistry and oxidation-reduction, chemical kinetics, atomic structure (quantum mechanics), chemical bonding, and spectroscopy. Three lecture and three hours lab per week. Credit: four hours. (Spring Semester)

Chemistry 201. Organic Chemistry I. Chemical bonding; introduction to stereochemistry and spectroscopy; survey of common functional groups. Prerequisite: Chemistry 102. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester)

Chemistry 202. Organic Chemistry II. Continuation of functional group survey with emphasis on selected topics of biological importance. Prerequisite: Chemistry 201. Three hours lecture, three hours lab. Credit: four hours. (Spring Semester) Writing intensive course.

Chemistry 210. Analytical Chemistry I. Methods, techniques, and problems in chemical analysis. Error analysis, stoichiometric calculations, chemical equilibrium, acid-base reactions. Three hours lecture, three hours lab. Prerequisite: Chemistry 102. Credit: four hours.

Chemistry 311. Physical Chemistry I. Gas laws, thermodynamics, equilibrium and kinetics. Three hours lecture, three hours lab. Prerequisite: Math 220, Chemistry 202, Physics 202 or consent. Capstone course in the major. Credit: four hours.

Chemistry 312. Physical Chemistry II. Quantum mechanics, solid state properties and physical methods. Three hours lecture, three hours lab. Prerequisite: Chemistry 311. Capstone course in the major. Credit: four hours.

Chemistry 320. Analytical Chemistry II. Basic instrumental analysis featuring spectroscopy, chromatography and electrochemical analysis. Three hours lecture, three hours lab. Prerequisite: Chemistry 210. Capstone course in the major. Credit: four hours.

Chemistry 391, 392. Junior Research. An introduction of chemical research techniques and problems. Involves the active investigation of a chemical research problem with the direct supervision of the chemistry faculty. Six hours of lab, library work, etc., per week. Prerequisite: Consent. Credit: two hours.

Chemistry 411. Inorganic Chemistry. The chemistry of the non-carbon elements emphasizing properties and reactions. Three hours lecture. Prerequisite: Chemistry 202. Credit: three hours.

Chemistry 420. Advanced Organic Chemistry. Application and extension of topics of Chemistry 202. Stereochemistry, synthesis and hetero-organic compounds. Three hours lecture, three hours lab. Prerequisite: Chemistry 202. Credit: four hours.

Chemistry 425. Biochemistry. (BIO 425) Functional organization of cells; basic biochemical pathways (analyzed in terms of thermodynamics, enzyme kinetics, and cellular localization); membrane phenomena. Prerequisite: Chemistry 205 or 202. Three hours lecture, three hours lab. Credit: four hours. (Fall Semester)

Chemistry 450. Hazardous Materials and Chemical Safety. Properties and reactions of hazardous materials. Fire prevention and control, chemical storage and labeling, safety procedures, and transportation regulations. Three hours lecture/demonstration. Prerequisite: Chemistry 202. Credit: three hours.

Chemistry 470. Current Topics in Chemistry. Investigation of chemical topics of current interest. The choice of topics will be based on the students' backgrounds and interests, the topics of current interest in the chemical literature, and those topics that would supplement the students' other chemistry courses. Prerequisite: CHEM 202. Credit: three hours.

Chemistry 491, 492. Senior Research. Chemical research techniques and problems. Active investigation of a chemical research problem. Six-eight hours lab. Prerequisite: Consent. Credit: three hours.

COMMUNICATIONS

Other courses in Communications are described in Speech Communication and Journalism listings.

Communications 325. Public Relations. History, functions, research methods, tools, and applications of public relations. Prerequisite: either Business 322 and Journalism 301, both are recommended. Credit: three hours. (Spring Semester)

Communications 341. (Music 341) Music Communications Seminar I. Career information, survey of media producers, synthesis of music and communications courses. Readings in professional journals. Designed for the junior music and communications student. One class hour per week. Credit: one hour (Fall Semester).

Communications 342. (Music 342) Music Communications Seminar II. Continuation of Music and Communications Seminar I. Reading and discussion of music and communications sources. Research on contemporary issues. Designed for the junior music and communications student. One class hour per week. Credit: one hour (Spring Semester).

Communications 420. Internship in Communication Studies. Directed field experience in selected areas of communication. Requires consent of the chairperson of the Division of Fine Arts. Must follow guidelines for Practicums, Field Experiences, and Internships on p. 67. Credit: three hours.

Communications 441. Music in Communications. (Music 441) Study of the functions of music in mass communications. Application through scoring commercials and underscoring drama. Three class hours per week. Prerequisites: Music 301 and consent. Credit: three hours (Alternate Spring Semesters)

Communications 442. Music Communications Internship. (Music 442) Directed field experience in areas of communication which include music. Intended for the senior music and communications student. Must follow guidelines for Practicums, Field Experience, and Internships on p. 67. Prerequisite: consent. Credit: three hours.

Communications 449. Independent Study. Pursuit of a special project in communications. Requires consent of Instructor, Department Coordinator, and Division Chair. Must follow guidelines for Independent Study on p. 67. May be repeated for a total of six credit hours. Credit: three hours.

COMPUTER INFORMATION SYSTEMS

Computer Information Systems 111. Introduction to Information Systems. Fundamentals of information systems and applications of the computer in business, science, mathematics, humanities, education. Overview of computer development and history, hardware, software, input/output devices and processing, and memory. Credit: two hours.

Computer Information Systems 112. Introduction to Information Systems Software. Fundamentals of computer software packages involving operating systems (DOS), word processing (Word Perfect) and spreadsheets (Lotus 123). Utilizes interactive computer-aided-instruction tutorials in the computer lab; requires the preparation of project assignments to demonstrate mastery of the software packages. Grade is pass/fail. Credit: one hour.

Computer Information Systems 201. FORTRAN Programming. Digital computing techniques, common numeric and non-numeric algorithms through study of FORTRAN IV. Flowcharting, DO-loops, sorting, report formatting, one and two dimensional arrays, functions and subroutines. Prerequisites: Some knowledge of computers, Math 108, 120; or consent. Credit: three hours.

Computer Information Systems 205. COBOL Programming. Use of computers, data systems, file structures and file processing, hardware-software systems, and COBOL programming. Prerequisite: Some knowledge of computers. Credit: three hours. (Fall Semester)

Computer Information Systems 210. Pascal. Pascal programming emphasizing procedure oriented techniques. Prerequisite: Some knowledge of computers, MATH 108, 120; or consent. Credit: three hours. (Spring Semester)

Computer Information Systems 301. Information Systems Analysis and Design. Basic system analysis tools; defining logical system requirements; steps in analysis; preliminary investigation, general feasibility study, general system proposal; detailed analysis; specification of input/output methods and formats; physical design (of files, programs, and procedures); system life cycle management. Prerequisite: Ability to program in a high level computer language. Credit: three hours. (Fall Semester)

Computer Information Systems 302. Data Base Management Systems. Design and management of data base systems. Management of data resources to support information systems in organizations. Prerequisite: CIS 111 and CIS 112; or ability to program in a high level computer language. Credit: three hours. (Spring Semester/alternate years)

Computer Information Systems 305. File Processing and Organization. Sequential file handling, building and accessing indexed files, sequential access methods, random access methods, advanced program design. Programs written in COBOL. Prerequisite: CIS 205. Credit: three hours. (Spring Semester)

Computer Information Systems 320. Data Structures. Linked lists, arrays, trees, queues and their application to files. Programming in Pascal. Prerequisite: CIS 210. Credit: three hours. (Spring Semester)

Computer Information Systems 330. Management Information Systems. (ACCT 330) Theory and practice of management information systems focusing primarily on design and utilization of computer-based information systems. Systems analysis and design from management perspective. Prerequisite: CIS 205 or Business 312. Credit: three hours. (Fall Semester)

***Computer Information Systems 401. Systems Analysis and Design Applications.** Special project assignments requiring application of principles of systems analysis and design. Prerequisite: CIS 301. Credit: three hours. (* writing intensive)

***Computer Information Systems 405. Advanced Programming.** Major programming projects in a programming language such as Pascal, COBOL, FORTRAN, C, or other compiler language available to the student. Required for the CIS emphasis. Prerequisite: 15 hours in CIS at or above the 200 level or consent of the instructor. Credit: three hours. (* capstone course)

Computer Information Systems 420. Assembly Language. IBM PC assembly language instruction set, input/output procedures, and subroutines. Prerequisites: two high level languages and junior classification. CIS 405 as capstone course. Credit: three hours. (Fall Semester)

Computer Information Systems 498. Independent Study. Selected topic under faculty supervision. Requires consent of the chairperson of the division of Business and Economics. Credit: three hours.

ECONOMICS

Economics 210. Economics (for non-business majors). An introduction to basic economic concepts and principles; an explanation of the economic realities of today (conditions, problems), and the conflicting ideas and theories being offered to explain them; discussions of the economic forces that shape our society. (Cannot be used for elective credit by majors in the School of Business.) Credit: three hours. (Spring Semester)

Economics 211. Principles of Economics. (Micro). Price system, markets, resource allocation, pure competition, monopoly, oligopoly, monopolistic competition, and current problems. Credit: three hours. (Recommended Fall Semester)

Economics 212. Principles of Economics (Macro). National income determination, taxation, money and banking, nature of economics, and current problems. Prerequisite: Economics 211. Credit: three hours. (Recommended Spring Semester)

Economics 301. Macroeconomics. Theories of the determination of national income and employment, and the general price level. Prerequisite: Economics 211, 212. Credit: three hours. Writing intensive course. (Fall Semester)

Economics 302. Microeconomics. Resource allocation and factor pricing. Topics include consumer demand, market structures, production theory, cost and distribution. Prerequisite: Economics 211, 212. Credit: three hours. Writing intensive course. (Spring Semester)

Economics 303. Managerial Economics. Decision-making for private or public enterprise; principles of economic maximization under uncertainty; marketing, financial, and production strategies in a dynamic multiperiod context. Prerequisite: Econ 211 (minimum grade of C), 212; Bus 308. Credit: three hours.

Economics 310. Money and Banking. Role of money in determination of national income and level of economic activity; institutional structure of commercial banking and the Federal Reserve System; effects of monetary policy. Prerequisite: Econ 211, 212. Credit: three hours.

Economics 314. Labor Economics. Nature and causes of labor problems in the U.S.; history and theory of labor movements; economic analysis of wages, unionism, labor management relations and public policy towards labor; introduction to manpower analysis. Prerequisite: Econ 211, 212. Credit: three hours. Writing intensive course. (Fall Semester)

Economics 410. Government and Business. Industrial organization and regulated enterprise, social control of business, and the study of government as a participant in the American economy. Prerequisites: Economics 211 and 212, Business 303 and 304. Credit: three hours. Writing intensive course. (Fall Semester)

Economics 411. Public Finance. Fundamentals of public finance, government, revenues and expenditures, taxation and borrowing, and effects of fiscal policy on the level of economic activity. Prerequisite: Econ 211, 212. Credit: three hours. (Spring Semester, alternate years)

Economics 415. International Economics. Economic theory of international trade; examination of history of international trade and recent developments in international economic policy. Prerequisite: Econ 211, 212. Credit: three hours. World Awareness course. (Every other Spring Semester)

Economics 498. Independent Study. (Requires consent of the Chairperson of the Division of Business and Economics.) Approved and supervised by faculty member. Credit: three hours.

Economics 499. Internship in Business. (Requires consent of the Chairperson of the Division of Business and Economics.) Qualified field experience. Approved and supervised by faculty member. Credit: three hours.

EDUCATION

Education 205. Educational Psychology. Theories of learning; maximizing learning and retention; motivation; classroom management and control; working with disadvantaged and gifted learners; fostering creativity; enhancing personal growth; testing and evaluation. Includes approximately 15 hours of field observation and participation. Projects focused at certification level. Prerequisite: Sophomore standing or consent of instructor. Credit: three hours.

Education 270. Music Education Seminar I (MUS ED 270). Career information, presentations by music educators, and observations in the public schools. Designed for the sophomore Music Education student. One class hour per week. Credit: one hour. (Fall Semester)

Education 301. Foundations of Education. Historical, philosophical, and social foundations of education; the governance of education; patterns of school organization; trends in education; and professionalism. Credit: three hours. (Spring Semester)

Education 305. Special Education. Basic/general knowledge concerning identification, characteristics, needs, and trends in the educational programming for children with handicapping conditions. Prerequisite: Ed. 205. Credit: two hours.

***Education 317. Language Arts/Reading Methods (K-6).** An overview of and methods and techniques for teaching basic communication skills, including the writing process: principles and techniques of reading instruction; intergration of the other subjects, an overview of basic reading skills and methods for teaching reading; preparation and use of lesson plans. Prerequisites: Education 301, 330. Credit: three hours. (Spring Semester) Writing intensive course.

***Education 318. Middle Grades Language Arts/Reading Methods.** An overview of methods and techniques for teaching communication skills and reading in grades 6-9, techniques for using creative dramatics, techniques and methods for teaching the special child. Prerequisites: Education 301, 330. Credit: three hours. (Spring Semester)

***Education 321. Diagnosis and Correction of Reading and Learning Problems.** Strategies for diagnosing difficulties in reading and other subject areas, writing individual educational prescriptions, implementing individualized programs of instruction, conferring with parents, and utilization of other professional resources. Involves a comprehensive case study. Projects focused at certification level. Prerequisites: Education 301 and 330. Credit: three hours. (Fall Semester)

***Education 322. Teaching Reading in the Content Areas.** Strategies for teaching pertinent reading skills including word analysis and work-study skills in major content areas; techniques for assessing readability and other characteristics of textbooks as well as determining the reading levels of students; non-reading alternatives for helping non-reading students. Projects focused at certification level. Prerequisites: Education 301 and 330. Credit: three hours. (Fall Semester)

***Education 323. Children's Literature (K-6).** Study of literary preferences and needs of children in grades K-6. Methods and techniques for presenting literature, including story telling, puppetry, creative dramatics, and story reading. Development of a resource file of titles and descriptions for use in teaching. Prerequisite: Psychology 201 or 202, Education 205. (Spring Semester)

***Education 324. English Methods for Secondary Teachers.** Methods, materials, techniques, and content for teaching English on the secondary level. Sources and uses for supplementary materials, activities, and devices. Includes component on the writing process. Simulated or real field experience. Open only to English majors seeking secondary education certification. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester)

***Education 325. Adolescent Literature. (6-9; 9-12)** Literary preferences and needs of students at the middle and secondary levels. Includes the use of creative dramatics and story reading. Development of a resource file of titles and descriptions for use in teaching. Projects focused at certification level. Prerequisites: Education 205, 330. Credit: three hours. (Spring Semester)

Education 330. Curriculum and Instruction. Concepts of curriculum theory, curricular design, curriculum planning, test design and interpretation, classroom organization and management, the special child. Audio-visual component. Ten hours field experience. Projects focused at certification level. For all teacher education majors. Credit: three hours. Writing intensive course.

***Education 331. Middle Grades Curriculum and Instruction.** Uniqueness of middle grades; curriculum content and structure, instruction, motivation, general teaching methodologics, remediation, enrichment strategics, appropriate test and evaluation strategies. Includes 6-10 hours field experience appropriate to concentrations. For all middle grades education majors. Prerequisites: Education 301, 330. Credit: three hours. (Spring Semester) Writing intensive course.

***Education 342. Elementary Education (K-6) Project.** Pre-student teaching field experience in the elementary grades. A minimum of 50 clock hours of direct participatory field experience, requiring a progression of sequenced experiences in observation, small group and large group settings. Prerequisites: Education 301, 330. Credit: three hours.

***Education 353. Science Methods for Elementary Education (K-6).** Content, material and methods for teaching science in grades K-6. Simulated science teaching experience appropriate for student goals. Development of lesson plans, resources for instruction, and science learning centers. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester)

***Education 354. Middle Grades and Secondary Science Methods.** Methods, materials, techniques and content for teaching science on the middle grades (6-9) and secondary (9-12) levels. Development of resources for instruction, lesson plans, and settings for laboratory work. Sources and uses for supplementary materials and devices. Prerequisites: Education 302, 330. Credit: three hours. (Fall Semester)

***Education 358. Mathematics Methods (K-6).** An overview of the essential components basic in mathematics; methods and techniques for teaching mathematics in the elementary grades; diagnosis and correction techniques; integration within mathematics and with other subjects; techniques for working with the special child; selection and use of computer software in the teaching of mathematics; design and use of lesson plans. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester) Writing intensive course.

***Education 359. Middle Grades Mathematics Methods.** An overview of the essential components in middle grades mathematics. Methods and techniques for diagnosing, correcting, teaching and evaluating mathematics in grades 6-9. Consideration of appropriate techniques for the special child, consideration and use of appropriate computer software. Design and use of lesson plans. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester)

***Education 362. Math Methods (9-12).** Teaching methodology in secondary mathematics. Mastery of curriculum content, historical scope and sequence. Selection and use of computer software in the teaching of mathematics. Consideration of appropriate math experiences for the exceptional child. Restricted to mathematics education majors. Includes approximately 12 hours of field observation and participation. Prerequisites: Education 301 and 330; Math 300, and 330, and 400. Credit: four hours. (Fall Semester)

Education 370. Music Education Seminar. (MUS ED 370) Continuation of Music Education Seminar I with added individual assignments to aid in career guidance and increase understanding of the profession. Designed for the junior Music Education student. One class hour per week. Prerequisites: Education 301 and 330. Credit: one hour. (Fall Semester)

***Education 374. Music Methods for Elementary Education (K-6) (MUS ED 374).** Music teaching methods and materials for the elementary classroom. Philosophy of music in the education of children. Fundamentals of music notation and terminology. Basic skills for using musical instruments in the elementary classroom. Prerequisites: Education 301 and 330; Humanities 102. Credit: three hours. (Fall Semester)

***Education 375. Art Methods for Elementary Education (K-6).** (ART 375) Comprehensive program of arts/crafts. Variety of drawing and painting techniques and craft processes including printmaking, papier mache, fabric projects, and collage. Portfolio of projects required upon completion of the course. Prerequisites: Education 301 and 330. Credit: three hours.

***Education 376. Teaching Methods for Art Majors. (ART 376)** Theories and practices influential in contemporary art education for grades K-12. Curriculum planning, practical experiences, and laboratory projects identify problems and explore concepts in elementary and secondary school art. Prerequisites: Education 301 and 330. Credit: three hours.

***Education 380. Elementary Physical Education Methods (K-6).** (REC 380) Physical fitness and organized activities appropriate to the grades K-6. Includes approximately 10 hours of field observation and participation. Prerequisites: Education 205, 301 and 330. Credit: three hours.

***Education 390. Social Studies Methods (9-12).** Role of the social studies in a spiral curriculum. Methodologies derived from learning theories and the nature of the social sciences are considered as sources for instruction strategies. Prerequisites: Education 301 and 330. Credit: three hours. (Fall Semester)

***Education 393. Social Studies Methods (K-6).** An overview of basic social studies skills, methods and techniques for teaching social studies in the elementary grades, integration of social studies with other subjects, techniques and methods for teaching the special child, preparation and use of lesson plans. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester)

***Education 395. Middle Grades Social Studies Methods.** An overview of and methods and techniques for teaching social studies in grades 6-9; integration with other subjects; techniques for teaching the special child; preparation and use of lesson plans. Prerequisites: Education 301, 330. Credit: three hours. (Fall Semester)

Education 400. Student Teaching Seminar A weekly 2-hour seminar that provides for presentation of additional information, discussion of professional issues, discussion of concerns and issues directly related to the on-going student teaching experience, and discussion of ethical issues and decision-making in teaching. Required of all student teachers. Prerequisite: Completion of all college and program requirements. Co-requisites: 440a, 440b, 440c,; 442a, 442b, 442c; 443a, 443b; 444a, 444b, 444c; 460a, 460b, 460c; 465a, 465b, 465c; 470a, 470b, 470c; 475a, 475b, 475c; 486a, 486b, 486c; or 487a, 487b, 487c. Credit: two hours.

Education 420. Investigations in Reading. Historical development and current trends in reading instruction; organization and administration of reading programs; principles of curriculum development; choosing, developing and using resources for reading instruction. Prerequisites: Education 301 and 330. Credit: three hours.

Education 440a. K-6 Student Teaching: Instructional Preparation.

Education 440b. K-6 Student Teaching: Instructional Presentation.

Education 440c. K-6 Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching the elementary grades K-6. Involves observation, participation, and structuring an educational environment. Three grades given: 440a-4 hours credit, 440b-4 hours credit, 440c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 442a. Music Student Teaching: Instructional Preparation.

Education 442b. Music Student Teaching: Instructional Presentation.

Education 442c. Music Student Teaching: Classroom Organization and Management. Supervised internship in music education. Involves observation, participation, and structuring an educational environment. May be taken only after completion of other required education courses. Student teaching fee assessed. Permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Capstone course for the major. Credit: thirteen hours.

Education 443a. 9-12 Social Studies Student Teaching: Instructional Preparation.

Education 443b. 9-12 Social Studies Student Teaching: Instructional Presentation.

Education 443c. 9-12 Social Studies Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching secondary (9-12) social studies. Involves observation, participation, and structuring an educational environment. Three grades given: 443a-4 hours credit, 443b-4 hours credit, 443c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 444a. Middle Grades Student Teaching: Instructional Preparation.

Education 444b. Middle Grades Student Teaching: Instructional Presentation.

Education 444c. Middle Grades Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching the middle grades (6-9) in appropriate areas of concentration. Involves observation, participation, and structuring an educational environment. Three grades given: 444a-4 hours credit, 444b-4 hours credit, 444c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 460a. 9-12 Mathematics Student Teaching: Instructional Preparation.

Education 460b. 9-12 Mathematics Student Teaching: Instructional Presentation.

Education 460c. 9-12 Mathematics Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching secondary (9-12) mathematics. Involves observation, participation, and structuring an educational environment. Three grades given: 460a-4 hours credit, 460b-4 hours credit, 460c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 465a. 9-12 English Student Teaching: Instructional Preparation.

Education 465b. 9-12 English Student Teaching: Instructional Presentation.

Education 465c. 9-12 English Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching secondary (9-12) English. Involves observation, participation, and structuring an educational environment. Three grades given: 465a-4 hours credit, 465b-4 hours credit, 465c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 470a. 9-12 Science Student Teaching: Instructional Preparation.

Education 470b. 9-12 Science Student Teaching: Instructional Presentation.

Education 470c. 9-12 Science Student Teaching: Classroom Organization and Management. Supervised 15-week internship in teaching secondary (9-12) Biology and Chemistry. Involves observation, participation, and structuring an educational environment. Three grades given: 470a-4 hours credit, 470b-4 hours credit, 470c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 475a. Art Student Teaching: Instructional Preparation.

Education 475b. Art Student Teaching: Instructional Presentation.

Education 475c. Art Student Teaching: Classroom Organization and Management. Supervised internship in teaching art. Involves observation, participation, and structuring an educational environment for art. Student teaching fee assessed. Prerequisites: Education 205, 301, 322, 376 and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Capstone course for the major. Co-requisite: ED 400. Total credit: thirteen hours.

Education 486a. K-6 Student Teaching: Instructional Preparation and Presentation.

Education 486b. K-6 Student Teaching: Classroom Organization and Management.

Education 486c. K-12 Reading Student Teaching. Two-phase supervised internship in teaching: 10 weeks in elementary grades K-6, 5 weeks in remedial reading lab. Involves observation, participation, and structuring an educational environment. Three grades given: 486a-4 hours credit, 486b-4 hours credit, 486c-5 hours credit. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: thirteen hours. Capstone course for the major.

Education 487a. Student Teaching: Instructional Preparation.

Education 487b. Student Teaching: Instructional Presentation.

Education 487c. Student Teaching: Classroom Organization and Management. Supervised 10-week internship in teaching in one of the Education majors offered. Involves observing, participating, and structuring an educational environment. Three grades given: 487a-2 hours credit, 487b-2 hours credit, 487c-2 hours credit. Offered under special circumstances and may be taken only through special permission of the Teacher Education Committee and Dean. Student teaching fee assessed. Prerequisite: Completion of all other college and program requirements and/or permission of the Dean of the School of Education with approval from the Teacher Education faculty. Co-requisite: ED 400. Total credit: six hours. Capstone course for the major.

*Prerequisite: Education 330 and full admission to the Teacher Education Program, or permission of the Dean of School of Education.

ENGINEERING

Engineering 105. Introduction to Engineering. An introductory survey of the different areas of engineering, history of engineering, professionalism and ethics. Includes lectures by practicing engineers on job descriptions, qualifications, and opportunities. Credit: Three Hours. Fall Semester.

Engineering 110. Engineering Graphics An introductory course that is designed to develop a basic proficiency in the use of graphic tools, techniques and methods to communicate two and three dimensional concepts. Credit: three hours. (Fall Semester, alternate years)

ENGLISH

English 101A. Communication I. Intensive study in grammar and composition with emphasis on writing as a process using a computerized writing lab. Reading in selected expository writing. Five days a week. Placement by examination. Credit: three hours.

English 101. Communication I. Fundamentals of English. Grammar, composition, and research with emphasis on writing as a process using a computerized writing lab. Readings in selected nonfiction. Discussion and research of selected topics. Credit: three hours.

English 101H. Honors. Communication I. Advanced Writing. Readings in essays and literature as source material for class discussion, writing, and research topics. Emphasis on writing as a process using a computerized writing lab. Credit: three hours.

English 102A. Communication II. Continuation of English 101A with emphasis on reading, writing, research and speaking using selected literature. Five days a week for students continuing from English 101A and those making a D in 101. Prerequisite: English 101 or 101A. Credit: three hours.

English 102. Communication II. Oral and Written Communication. Emphasis on reading, writing, research, and speaking using selected literature. Prerequisite: English 101 or 101H. Credit: three hours.

English 102H. Honors. Communication II. Advanced Composition and Creative Writing. Emphasis on oral and written communication using selected literature. Prerequisite: English 101 or 101H. Credit: three hours.

English 201. Major British Authors. Representative English writers from Chaucer through the Contemporary Period. Prerequisites: English 101-102. Credit: three hours. World Awareness course.

English 203. Major American Authors. Representative American writers from the Colonial through the Contemporary Period. Prerequisites: English 101-102. Credit: three hours.

English 205. Major World Authors. Selected world writers from classical to modern with emphasis on those other than Anglo-American. Designated "World Awareness" course. Prerequisites: English 101-102. Credit: three hours.

English 301. Religious Thought in Literature. (REL 301) Religious and Philosophical ideas as reflected in American writers from the Puritan through the Contemporary Period. Credit: three hours. (Fall Semester, odd years)

English 303. Ethnic American Literature. Credit: three hours. (Fall Semester)

History 460. Independent Study in History. By permission only. Credit: three hours.

HONORS

Honors 200. Ideas in Literature. A seminar in how selected literary works examine social issues from a cross-cultural perspective. Meets GER literature requirement. Prerequisite: admission to the Honors program and sophomore standing. Credit: 3 hours.

Honors 300. The Making of the Modern Mind. An interdisciplinary seminar in the ideas that make the present age distinctive. Prerequisite: admission to the Honors program and junior standing. May be counted toward world awareness GER requirement. Credit: 3 hours.

HUMAN SERVICES

Human Services 321. Introduction to Human Services. Exploration of human service delivery systems. Survey of the field and clarification of vocational choice. Credit: three hours. (Fall Semester) Prerequisite: Junior standing or consent of instructor.

Human Services 409. Independent Study. Under the supervision of a faculty member, students develop a topic relevant to their program and vocational goals. Topics focus explicitly and in depth on methods of human services. Restricted to seniors who have a 3.0 cumulative grade point average. Credit: three hours.

Human Services 411. Practicum. Required of Human Services majors. Field experience under supervision of experienced practitioners. Assessment and development of skill strengths. Departmental screening required prior to registration. Capstone course for the major. Prerequisite: H.S. 321; Senior standing or consent of instructor. Credit: four hours.

Human Services 415. Field Experience in Human Services. Directed field experience in selected human services settings. Prerequisite: Human Services 411 and consent. Credit: three hours.

HUMANITIES

Humanities 101. Fine Arts: Art and Drama. Basic concepts of art and drama. Relationships between styles in fine arts and external factors in society, analysis of works of visual arts and performances for their qualitative attributes. Required of all education majors except for art and music education majors. Credit: three hours. (Fall Semester)

Humanities 102. Fine Arts: Dance and Music. Basic concepts of dance and music. Relationships between styles in fine arts and external factors in society, analysis of works of visual arts and/or performances for their qualitative attributes. Required of all education majors except art and music education majors. Credit: three hours. (Spring Semester)

Humanities 301. Readings in Humanities. Readings and discussion on assigned topics in literature, music, and art. Concepts organized from an aesthetic perceptive. Communication skills emphasized. Credit: three hours.

JOURNALISM

Journalism 101. Workshop. Workshop in writing news and feature stories, preparing lay-out, and copy editing coordinated with publication of student publications. May be repeated once. Credit: one hour.

Journalism 201. Mass Communications. Role of mass media in contemporary society. Emphasis on impact and technological, social, and governmental factors which shape media. Credit: three hours.

Journalism 301. Newswriting. Fundamental principles of news gathering and newswriting; study of news and news values. Enrolled students assist in the production of the Weekly Triangle. Credit: four hours.

Journalism 320. Religious Journalism. Principles and techniques of church publications, public relations, and curriculum writing. Emphasis on interpretation of the church through all mass media, including radio and television. Credit: three hours. (Spring Semester)

Journalism 403. Mass Media Law and Ethics. Laws and regulations concerning the mass media, to include privacy, libel, and broadcast regulations. Credit: three hours. (Spring Semester)

Journalism 405. News Editing. Copy editing, make-up, headline writing, picture editing, typography and printing, and mass media law. Enrolled students assist in the production of the Weekly Triangle. Prerequisite: Journalism 301. Credit: four hours. (Spring Semester)

Journalism 410. Feature Writing. Feature article writing for newspapers and magazines with frequent writing assignments aimed toward publication. Prerequisite: Journalism 301. Credit: three hours. (Fall Semester)

Journalism 412. Editorial Writing. Editorial writing in print and broadcasting. Prerequisite: Journalism 301. Credit: three hours. (Fall Semester)

MATHEMATICS

Math 97. Pre-College Algebra. Thorough review of arithmetic, elementary geometry, and introduction to algebraic processes in problem solving. *Credit: three hours.

Math 100. Intermediate Algebra. An introduction to basic algebraic operations as applied to polynomial, linear and quadratic functions. Selected topics in analytic geometry are introduced. Restricted to students with less than two units of high school algebra or recommendation of mathematics faculty. Credit: three hours.

Math 105. Mathematics for Elementary Education (K-6; 6-9). Theoretical concepts of problem solving, arithmetic, algebra and geometry, including a basic introduction to computers. Restricted to majors in Elementary and Middle Grades education. Credit: four hours.

Math 108. Mathematics for Business and Economics. Linear equations, introduction to linear programming, logarithms, matrices, limits, functions, and introduction to differential calculus. For the baccalaureate degree in business. Credit: three hours.

Math 109. Elementary Statistical Methods. An introduction to probability and statistics through the central limit theorem, with emphasis on the collection, presentation, and analysis of data relating to the humanities and social sciences. Credit: three hours.

Math 112. College Algebra. Algebraic operations as applied to polynomials, linear functions, quadratic functions exponential functions, equations, inequalities, and systems of equations. Selected topics in analytic geometry are included where possible. Prerequisite: Two years of algebra and one year of geometry. Credit: three hours.

Math 113. Trigonometry. An introduction to the trigonometric functions and their inverses; including trigonometric identities, graphs, multiple angle formulas and applications. Additional topics include exponential and logarithmic functions. Prerequisite: Two years of algebra and one year of geometry. Credit: three hours.

*Course designed to remove deficiencies and weaknesses. Credit does not apply toward graduation and is not necessarily transferable to other colleges and universities.

Math 120. Calculus and Analytic Geometry I. Rectangular coordinates in the plane, functions, limits, continuity, differentiation of algebraic and trigonometric functions, the application of derivatives and the differential, integration and the application of the definite and indefinite integral. The first of three semesters of a united course in analytic geometry and calculus. For engineers, mathematics majors, and science majors. Prerequisite: Math 112 and Math 113 or equivalent. Credit: four hours.

Math 209. Inferential Statistics. Introduction to methods of inferential statistics, stressing applications. Topics include introduction to probability, special distributions, confidence intervals, hypothesis testing, and linear regression. Designed for biology majors. Credit: three hours. (Even Spring Semesters)

Math 220. Calculus and Analytic Geometry II. The second of three semesters of a unified course in analytic geometry and calculus. Transcendental functions, hyperbolic functions, methods of integration, polar coordinates, parametric equations. Prerequisite: Math 120. Credit: four hours. (Spring Semester)

Math 242. Discrete Mathematics. Introduction to combinatorial analysis and graph theory. Topics include combinations, permutations and other counting methods, binomial and multinomial theorems, equivalence relations, graph theory, generating functions, and difference equations. Prerequisite: Math 120. Credit three hours. (Fall Semester)

Math 300. College Geometry. Selected topics from Euclidean, noneuclidean and solid geometry. Ideas and methods of geometry. Prerequisite: Math 240. Credit: three hours. (Even Fall Semesters)

Math 305. Calculus and Analytic Geometry III. The third of three semesters of a unified course in analytic geometry and calculus. Vector functions and their derivatives, series, partial differentiation, multiple integration, and vector analysis. Prerequisite: Math 220. Credit: four hours. (Fall Semester)

Math 308. Linear Algebra. Systems of equations, matrices, determinants, linear transformations, vector spaces and eigenvectors. Prerequisite: Math 240. Credit: three hours. (Spring Semester)

Math 310. Differential Equations. First order equations with variables separable; Euler's method of approximate solutions; physical and geometric applications. Linear equations of the first order; applications. Solutions of linear equations with constant coefficients; methods of undetermined coefficients; operators. Application to network and dynamical systems. Introduction to series-solutions. Prerequisite: Math 305. Credit: three hours. (Spring Semester)

Math 330. Statistics I. Continuous and discrete probability distributions, random variables, limit theorems, stochastic processes, sampling, estimation and hypothesis testing. Prerequisite: Math 240. Credit: three hours. (Odd Fall Semesters)

Math 331. Statistics II. Continuation of Math 330. Prerequisite: Math 330. Credit: three hours. (Even Spring Semesters)

Math 400. Modern Algebra I. Abstract algebra including rings, integral domains and fields. Prerequisite: Math 308. Credit: three hours. (Even Fall Semesters)

Math 401. Modern Algebra II. Groups, polynomial rings, ideals, quotient rings, Boolean algebras, and lattices. Prerequisite: Math 400. Credit: three hours. (Odd Spring Semesters) Writing intensive course.

Math 450. Special Topics. Topics selected from advanced calculus, topology, advanced modern algebra, combinatorics, number theory, or foundations. May be taken up to three times. Taught on demand. Prerequisite: consent of instructor. Credit: three hours.

Math 460. Independent Study. Study of student-selected topic under faculty supervision. Credit: three hours.

MEDIA ARTS

Media Arts 250. Single Camera Film and Video. (ART 250) Creation and evaluation of short programs emphasizing field production and post-production editing. Credit: three hours.

Media Arts 310. Audio. Creative production and recording of audio drama, music, and documentary. Study of audio techniques for media such as television, radio, film and multi-image. Prerequisite: Media Arts 250 or permission. Credit: three hours.

Media Arts 360. Studio Television Producing. Building proficiency in each of the various roles necessary for effective TV production. Students write, produce and direct a studio TV program. Prerequisite: Media Arts 250. Credit: three hours.

Media Arts 400. Advanced Video Production. Advanced work in the medium of the student's choice, such as film, multi-image, video, animation, or audio. Content may be fictional or documentary. Emphasis on communication and portfolio development. Credit: three hours.

Media Arts 450. Media Decision Making. Structure, organization and effects of Mass Media: Students will examine a media organization in depth, and will study the effects of media on specific target audience. Credit: three hours.

MEDICAL ASSISTING

Medical Assisting 101. Introductory Medical Assisting. An introduction to the role of Medical Assisting and to medical terminology. Emphasis placed on professional attitude and behavior, patient psychology, history of medicine, and basic skills in duties of receptionist and medical secretary. Three hours lecture, two hours lab. Credit: four hours.

Medical Assisting 102. Administrative Procedures. Continuation of MA 101. Administrative and secretarial duties, bookkeeping and insurance skills, etc. Proper formatting of medical records and office notes; composition of impromptu notes and letters. Use of professional terms and phrases in medical record keeping. Prerequisite: MA 101. Three hours lecture, two hours lab. Credit: four hours.

Medical Assisting 103. Medical Law and Ethics. Legal and ethical relationships of physician and patient emphasizing contracts, professional liability, malpractice, Medical Practice Acts, and health insurance plans. Credit: three hours. (Fall Semester)

Medical Assisting 104. Medical Terminology I and Medical Assisting 105. Medical Terminology II. Language used in the course of a medical professional's routine duties. Includes basic word analysis, whole terms pertaining to the body, suffixes, and prefixes. Credit: six hours.

Medical Assisting 201. Clinical Procedures I. Clinical aspects of the medical facility. Includes instruments, medical equipment, injections, patient examinations, etc. Prerequisite: MA 101-102 and consent of program director. Three hours lecture, four hours lab. Credit: four hours.

Medical Assisting 202. Clinical Procedures II. A continuation of the clinical and laboratory aspects of the medical facility. Prerequisite: MA 201 and consent of program director. Three hours lecture, two hours lab. Credit: three hours.

Medical Assisting 203. Clinical Pathology for Medical Assistants I. Basic orientation in microscopy, urinalysis, hematology, and microbiology. Prerequisite: MA 101-102; Co-requisite: MA 201; one hour lecture, two hours lab. Credit: four hours.

Medical Assisting 204. Pharmacology. Drug therapy; Mathematics of dosage, drug legislation and standards, and a study of drugs as they affect each body system. Co-requisite: MA 201. Three hours lecture. Credit: three hours.

Medical Assisting 206. Practicum. Practicum in a physician's office or clinic in the last semester of the student's program. Credit: six hours.

Medical Assisting 208. Administrative Medical Office Management. Presentation of problems encountered in working in doctor's office. Class meets prior to externship and continues as weekly seminar during externship. Credit: three hours.

Medical Assisting 213. Clinical Pathology for Medical Assistance II. Continuation of MA 203 emphasizing performance of individual skills at a competency level for entry-level medical assisting positions. Prerequisite: MA 203 and consent. Credit: one hour. (Spring Semester)

MUSIC

Music 100. Basic Music Theory. Pitch notation, rhythm, intervals, scales, key signatures, and triads. Designed for students interested in music, but who are not music majors. Credit: three hours.

Music 101. Theory I. Fundamentals of music, including scales, intervals, triads and their inversions, plus basic part-writing principles. Credit: three hours. (Fall Semester)

Music 102. Theory II. Continuation of study of tonal harmony with emphasis on use of seventh chords and harmonic analysis. Prerequisite: Music 101. Credit: three hours. (Spring Semester)

Music 103, 303. College Chorus. A choral ensemble which deals with basic choral technique. Open to all students. No audition required. Regular on-campus performances. Two hours rehearsal per week. May be repeated for credit. Credit: one hour.

Music 104. Music Appreciation. Designed to acquaint students with elements necessary to enjoyment and understanding of music; vocabulary of musical terms, opportunity to become an informed listener. Class lectures, source readings, recorded music, live concerts. Three class hours per week. Credit: three hours.

Music 105. Music Literature. General survey of forms and styles of music. Directed listening and score reading is employed to develop depth in criteria for appreciation of music. Prerequisite: Music 101. Credit: three hours. (Spring Semester) World Awareness course.

Music 107, 307. Symphonic Band. Rehearsal and performance of various levels and varieties of wind and percussion literature. Performs regularly on and off campus. Three class hours per week. Credit: one hour. (Spring Semester)

Music 108, 308. Marching Band. Rehearsal and performance of marching productions and precision drill for stadium audiences. Three class hours per week. Credit: one hour. (Fall Semester)

Music 109, 309. Chamber Singers. Performance organization of a maximum of 24 selected mixed voices which performs regularly on and off campus. Rehearsal and performance of choral literature appropriate to various functions. Formal attire is the responsibility of the student. By audition. Four class hours per week. Credit: one hour.

Music 111, 311. Wingate Chorale. Study and performance of various styles of choral music. Corequisite: Enrollment in Music 109, 309. Two class meetings per week. Credit: one hour.

Music 112, 312. Jazz Ensemble. Rehearsal, study and performance of repertoire from all areas of the jazz idiom. Performs regularly on and off campus. Two class hours per week. Corequisite: Enrollment in Music 108/308 (Fall) and Music 107/307 (Spring) Credit: one hour

Music 113, 313. Chamber Ensemble. Rehearsal and performance of selected chamber works. For elective credit only. By audition. Two hours per week. Credit: one hour.

Music 114, 314. Guitar Ensemble. Rehearsal and performance of guitar ensemble literature. Prerequisite: Music 139 or permission of the instructor. Two class hours per week. Credit: one hour.

Music 121. Ear Training I. Foundations in sight singing and dictation. Practice of harmonic and melodic intervals to the octave. Rhythmic dictation in simple and compound meters. Reading of all clefs using moveable Do solfege. Credit: one hour. (Fall Semester)

Music 122. Ear Training II. Continuation of sight singing and dictation in all major and minor keys. Singing of triads and dominant sevenths in all inversions. Further rhythmic study. Prerequisite: Music 121. Credit: one hour. (Spring Semester)

Music 125, 126; 225, 226; 325, 326; 425, 426. Recital and Concert Lab. To acquaint the student with composers and performance practices through recitals and concerts. Attendance is required at 90% of all recitals and concerts as posted by the music faculty. Exceptions are at the discretion of the division chairman. Eight semesters, BM and BA; seven semesters, BS & BME. Credit: 0.

Music 130. Class Voice I. Position and poise of the body, strengthening exercises for the development of vocal freedom. Simple songs. Open to secondary voice students and all students who wish to learn basic vocal techniques. Two class hours per week. Credit: one hour.

Music 131. Class Voice II. Expansion of Music 130 with emphasis on basic techniques and simple solo literature. Two class hours per week. Prerequisite: Music 130. Credit: one hour.

Music 132. Woodwinds. Basic techniques and materials for teaching woodwind instruments. Two class hours per week. Credit: one hour. (Fall Semester)

Music 133. Brass. Basic techniques and materials for teaching brass instruments. Two class hours per week. Credit: one hour. (Fall Semester)

Music 134. Percussion. Basic techniques and materials for teaching percussion instruments. Two class hours per week. Credit: one hour. (Spring Semester)

Music 136. Class Piano I. Basic music terminology, concepts, and keyboard skills. Two class hours per week. Credit: one hour.

Music 137. Class Piano II. An extension of Music 136 with more emphasis on improvisation, harmonization, and transposition. Two class hours per week. Prerequisite: Music 136. Credit: one hour.
